What is UPB-LIS?

UPB LIBRARY INVENTORY SYSTEM

The University of the Philippines Baguio – Library Inventory System is a web-based application intended to be used by the UPB Main Library staff. The goal of the project is to develop a fully automated, efficient, and user-friendly software that will aid the staff in inventory management.

NEXT >

SYSTEM INSTALLATION

How to install the system?

’’ PREREQUISITES

This program requires [XAMPP](#) to handle server-side scripts (PHP codes) and to create the MySQL database.

Download XAMPP version according to your Operating System (i.e., Windows, Linux, Mac OS, etc.) and hardware requirements.

The screenshot shows the Apache Friends Download page. At the top, there are links for Apache Friends, Download, Add-ons, Hosting, Community, and About, along with a search bar and language selection (EN). The main section is titled "Download" and features a heading: "XAMPP is an easy to install Apache distribution containing MariaDB, PHP, and Perl. Just download and start the installer. It's that easy." Below this is a section for "XAMPP for Windows 7.3.28, 7.4.20 & 8.0.7". It lists three versions with their respective checksums (md5, sha1), download links (Download (64 bit)), and file sizes. A note states: "Windows XP or 2003 are not supported. You can download a compatible version of XAMPP for these platforms here." Below this is a section for "XAMPP for Linux 7.3.28, 7.4.20 & 8.0.7", which also lists two versions with their details. To the right, there is a sidebar titled "Documentation/FAQs" with a note about the lack of a manual and links to forums and Stack Overflow. Another sidebar titled "Add-ons" shows icons for Bitnami tools like WordPress, Joomla!, and Drupal.

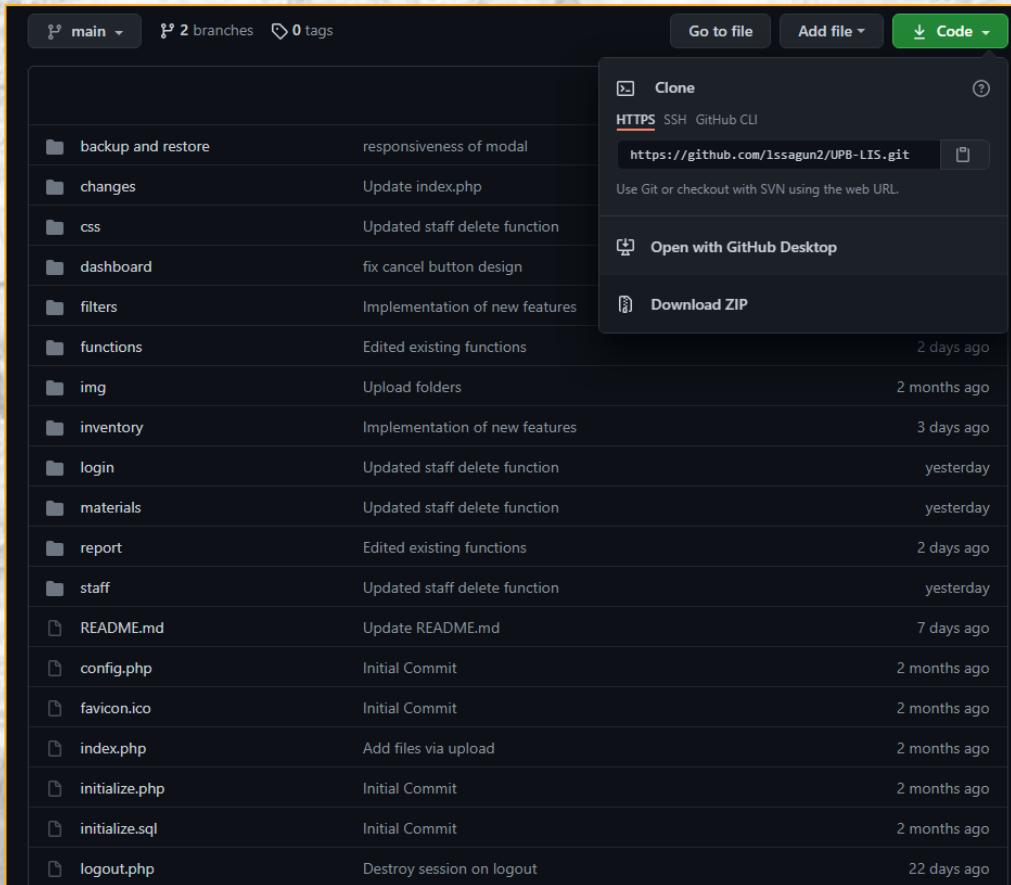

Version	Checksum	Size
7.3.28 / PHP 7.3.28	What's Included? md5 sha1	Download (64 bit) 155 Mb
7.4.20 / PHP 7.4.20	What's Included? md5 sha1	Download (64 bit) 156 Mb
8.0.7 / PHP 8.0.7	What's Included? md5 sha1	Download (64 bit) 157 Mb

Version	Checksum	Size
7.3.28 / PHP 7.3.28	What's Included? md5 sha1	Download (64 bit) 151 Mb
7.4.20 / PHP 7.4.20	What's Included? md5 sha1	Download (64 bit) 154 Mb

SYSTEM INSTALLATION

01

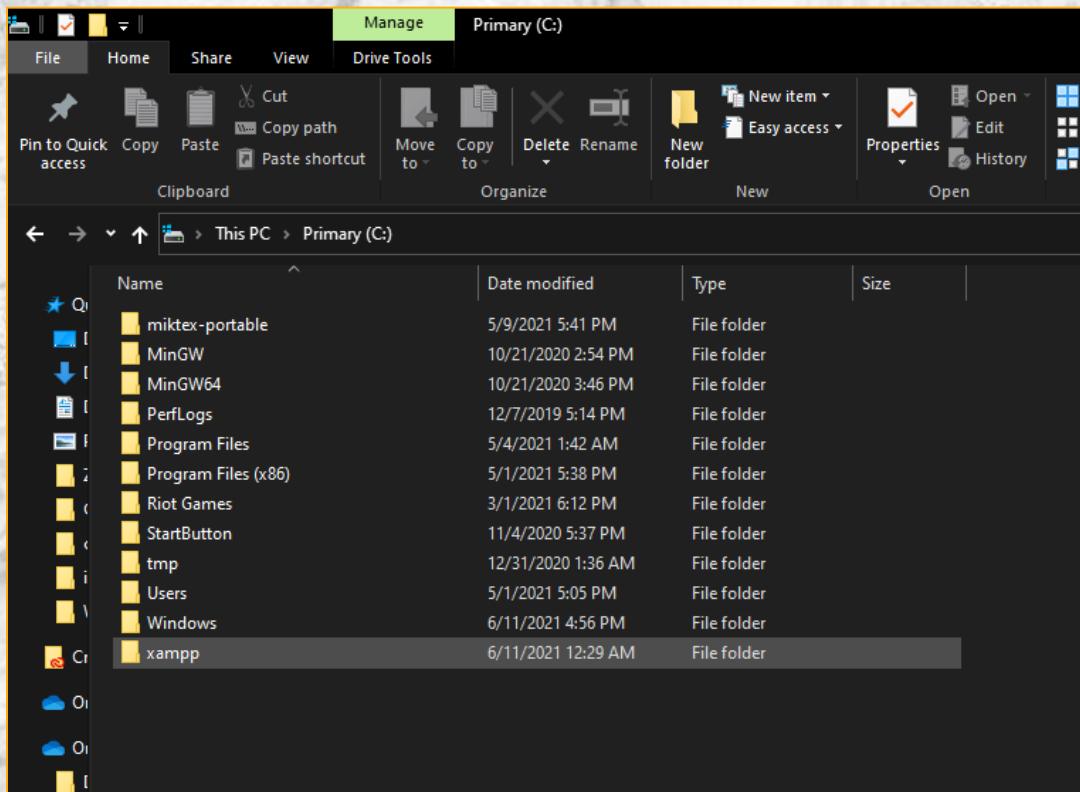

Download the repository as a .zip file

SYSTEM INSTALLATION

02

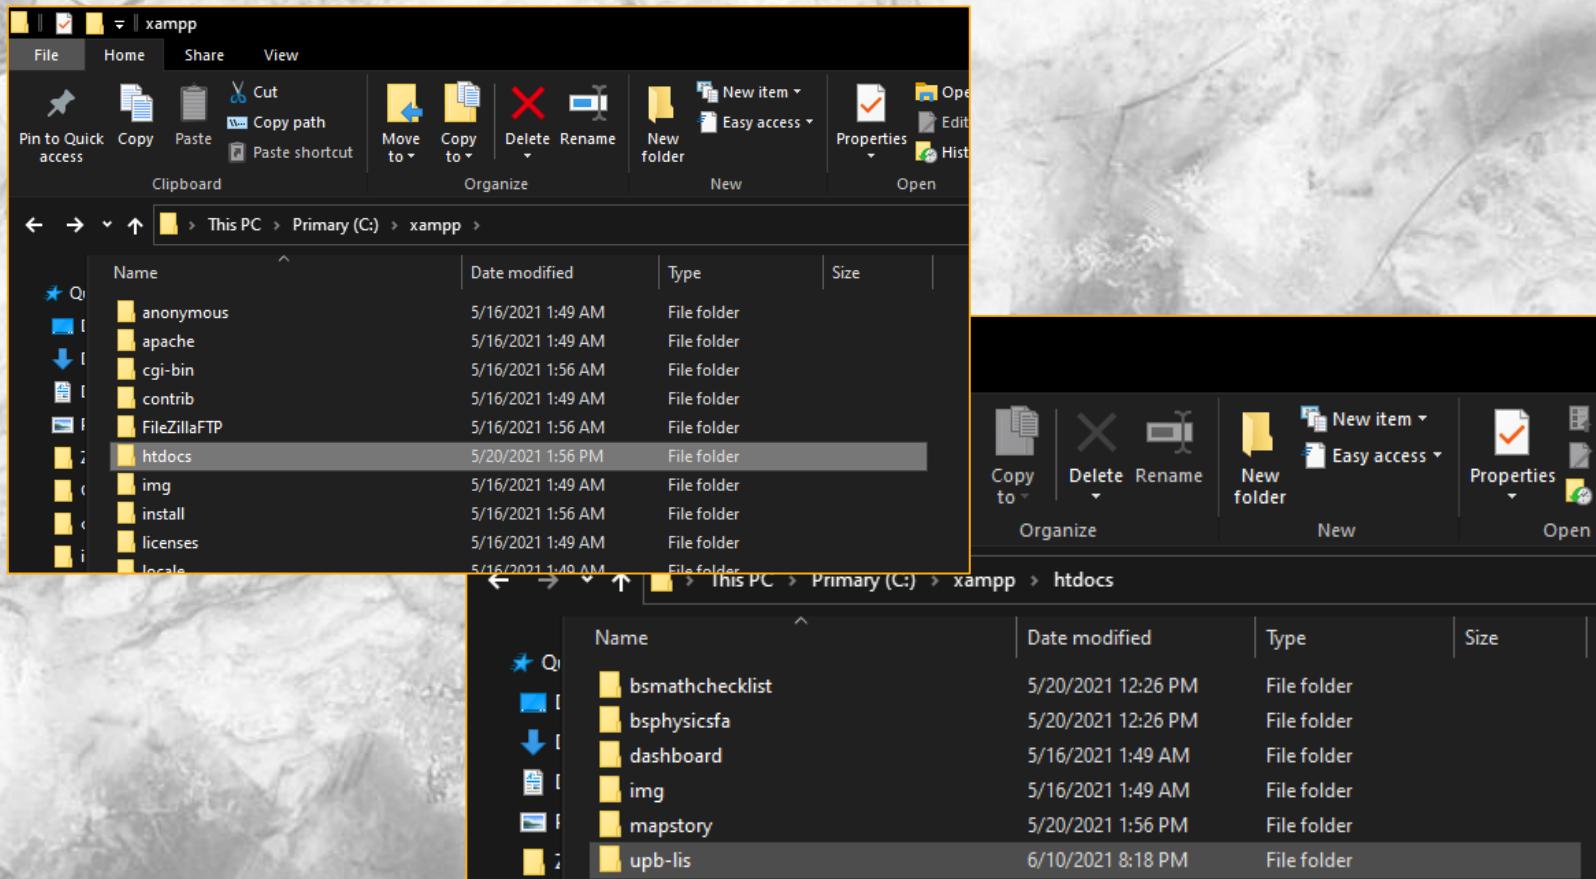

Locate your XAMPP installation folder

03

SYSTEM INSTALLATION

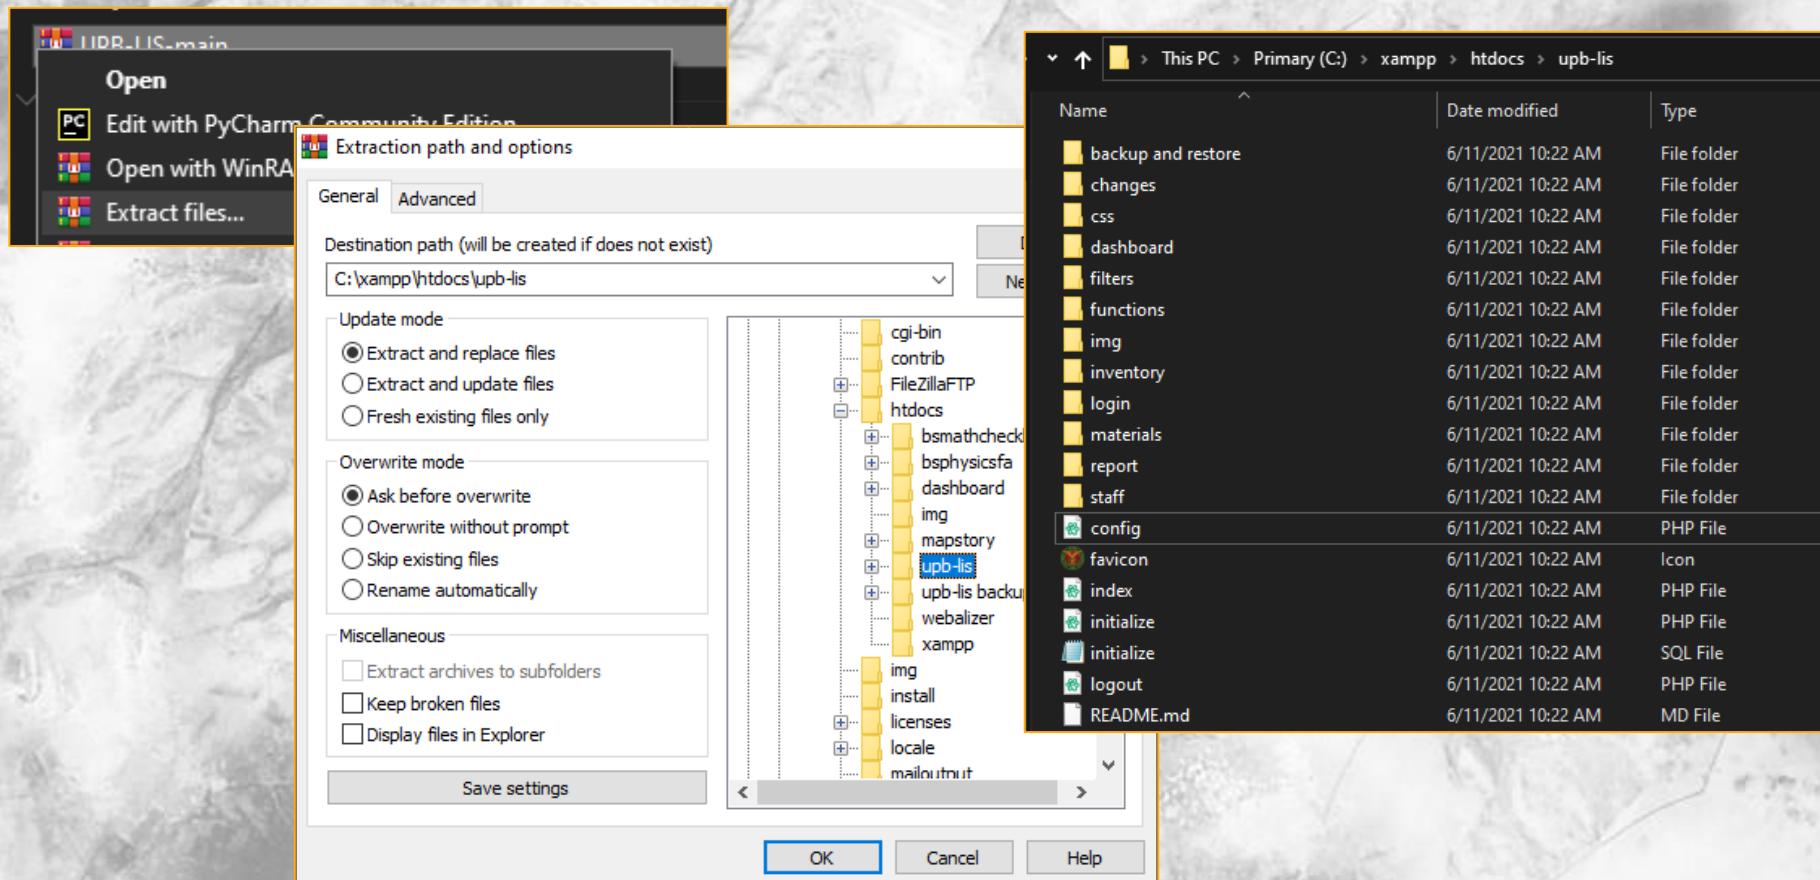

Go to xampp/htdocs and create a folder named upb-lis

04

SYSTEM INSTALLATION

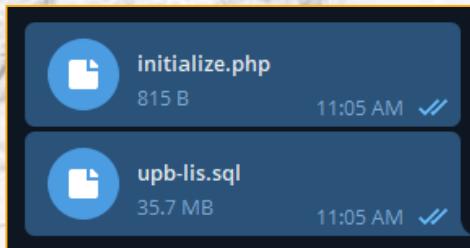

From the .zip file, open the folder and extract all files and folders into xampp/htdocs/upb-lis

SYSTEM INSTALLATION

05

Download the PHP and SQL files (to be given directly by the developers)

06

Place the **initialize.php** in the xampp/htdocs/upb-lis folder and the **upb-lis.sql** file in the xampp/mysql/bin folder

07

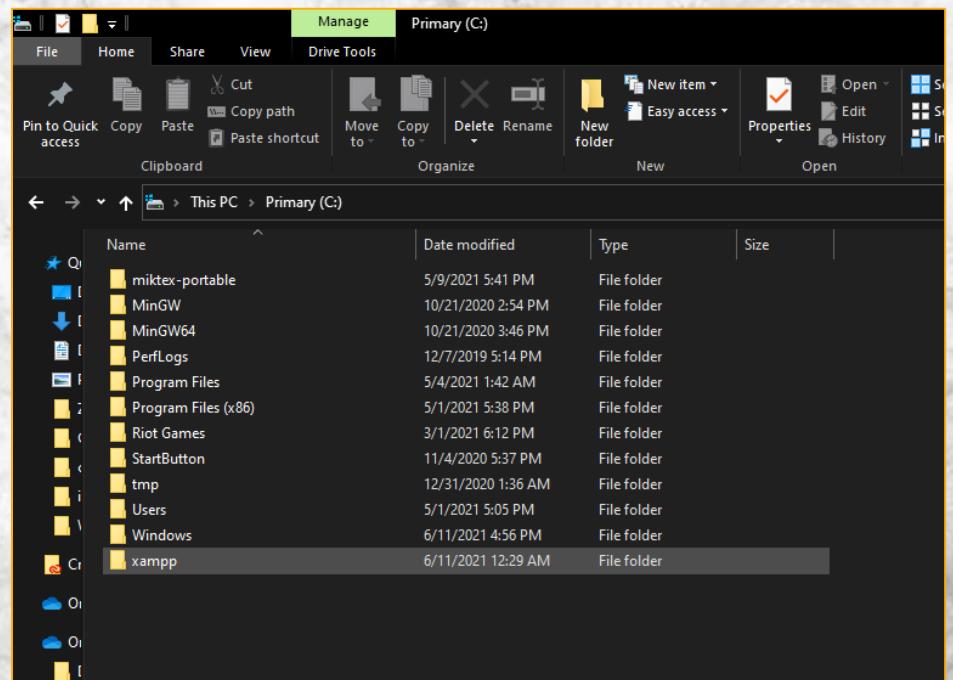

Proceed to [XAMPP Application](#)

XAMPP APPLICATION

How to use XAMPP?

01

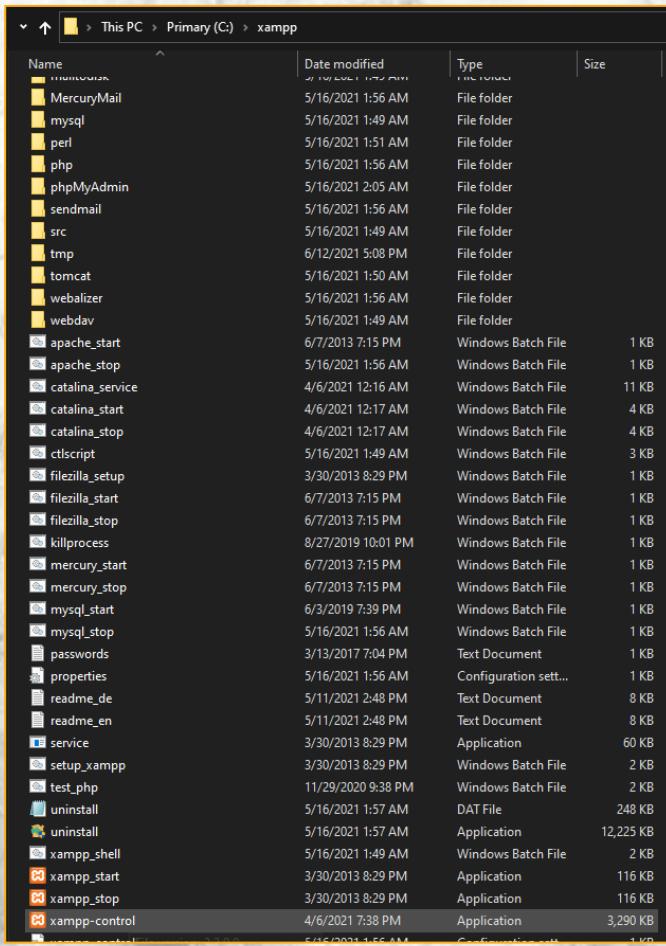

Locate your XAMPP
installation folder

02

XAMPP APPLICATION

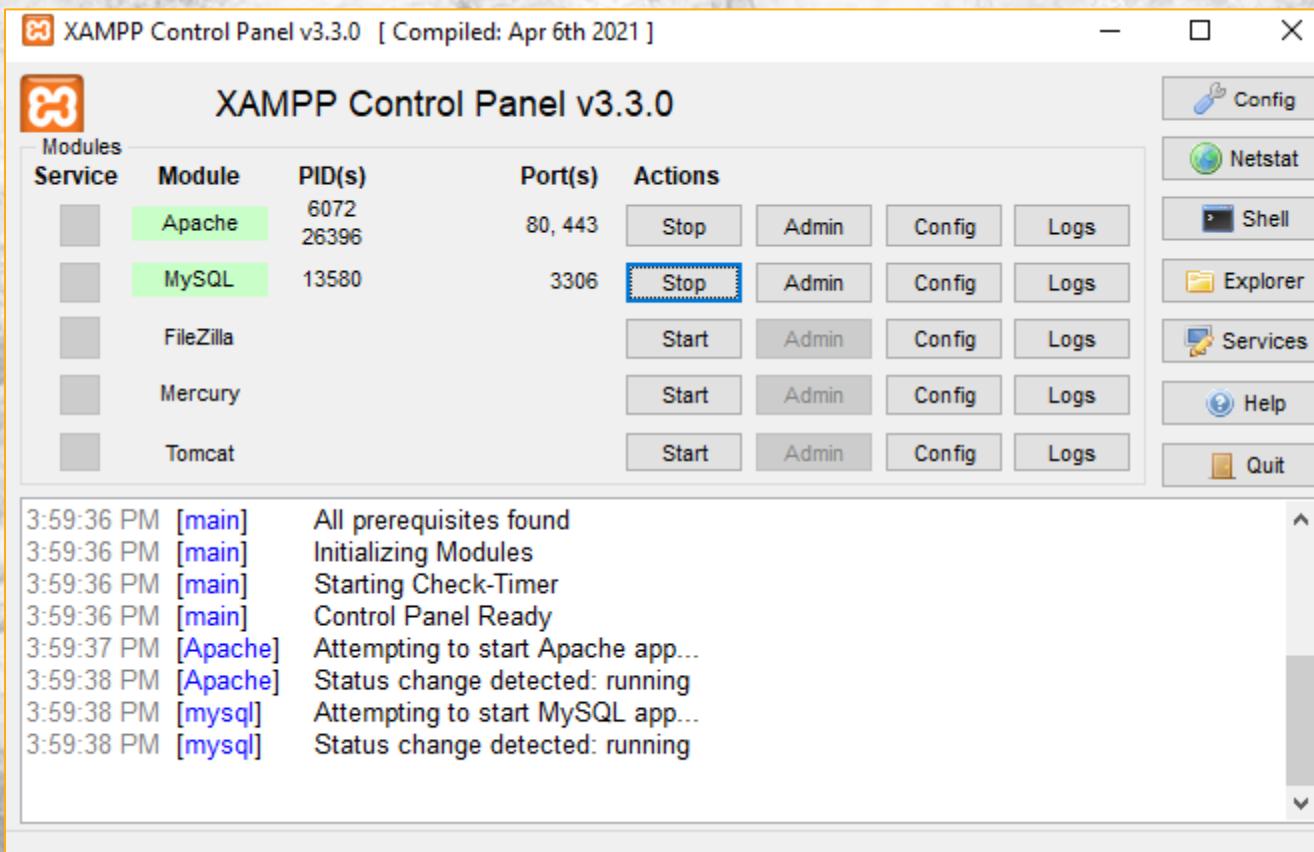

Scroll down through the XAMPP folder and find **xampp-control**

03

XAMPP APPLICATION

Open xampp-control and start Apache and MySQL modules

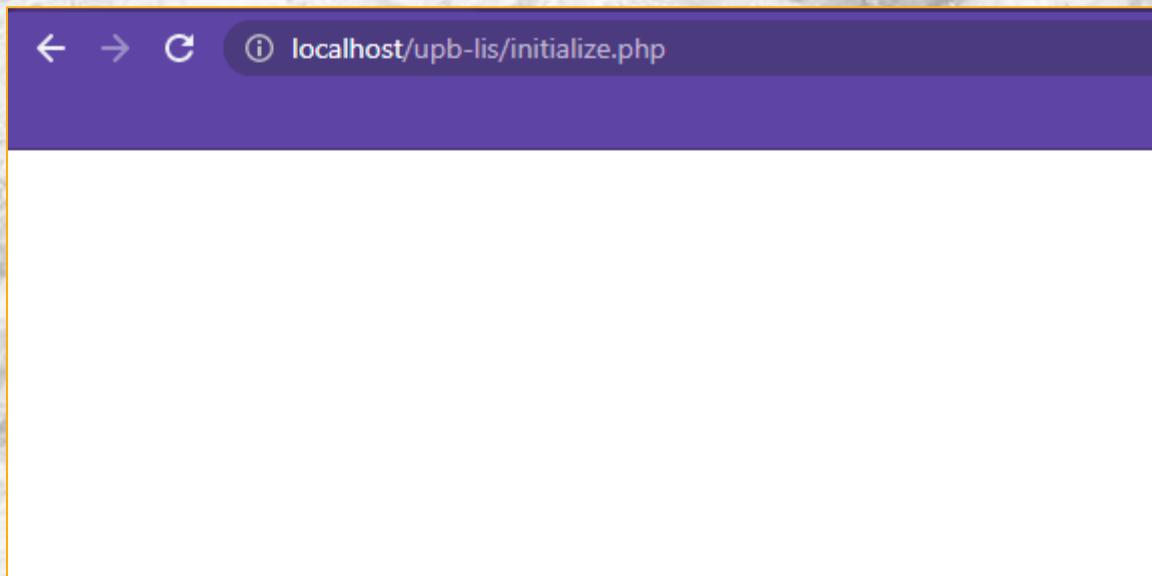

04

XAMPP APPLICATION

For the first run, initialize the program by loading the following in any browser:

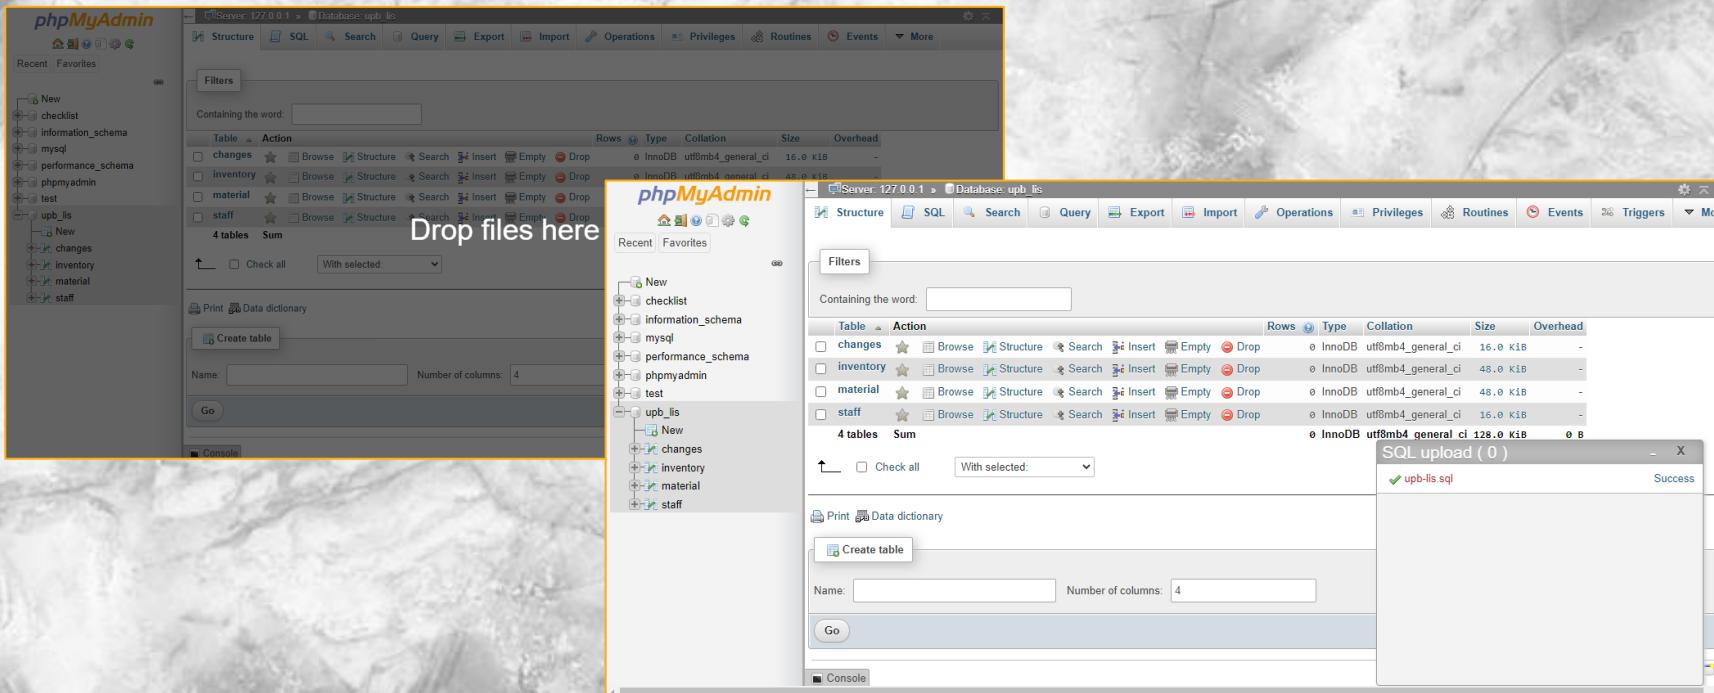

localhost/upb-lis/initialize.php

05

XAMPP APPLICATION

Go to `localhost/phpMyAdmin` in your browser and import **upb-lis.sql** from the `xampp/mysql/bin` folder to the `upb_lis` database by just dragging the SQL file

06

XAMPP APPLICATION

Refresh the page and check the number of rows in the ‘rows’ column of the ‘inventory’ and ‘material’ table, the expected value is 94,601 materials

Table	Action	Rows	Type	Collation	Size	Overhead
announcements	Browse Structure Search Insert Empty Drop	1	InnoDB	utf8mb4_general_ci	16.0 KiB	-
changes	Browse Structure Search Insert Empty Drop	0	InnoDB	utf8mb4_general_ci	16.0 KiB	-
inventory	Browse Structure Search Insert Empty Drop	~94,340	InnoDB	utf8mb4_general_ci	4.5 MiB	-
material	Browse Structure Search Insert Empty Drop	33,642	InnoDB	utf8mb4_general_ci	8.5 MiB	-
staff	Browse Structure Search Insert Empty Drop	0	InnoDB	utf8mb4_general_ci	16.0 KiB	-
5 tables	Sum	~127,983	InnoDB	utf8mb4_general_ci	13.1 MiB	0 B

Table	Action	Rows	Type	Collation	Size	Overhead
announcements	Browse Structure Search Insert Empty Drop	1	InnoDB	utf8mb4_general_ci	16.0 KiB	-
changes	Browse Structure Search Insert Empty Drop	0	InnoDB	utf8mb4_general_ci	16.0 KiB	-
inventory	Browse Structure Search Insert Empty Drop	94,601	InnoDB	utf8mb4_general_ci	4.5 MiB	-
material	Browse Structure Search Insert Empty Drop	33,642	InnoDB	utf8mb4_general_ci	8.5 MiB	-
staff	Browse Structure Search Insert Empty Drop	0	InnoDB	utf8mb4_general_ci	16.0 KiB	-
0 table(s)	Sum	0	InnoDB	utf8mb4_general_ci	0 B	0 B

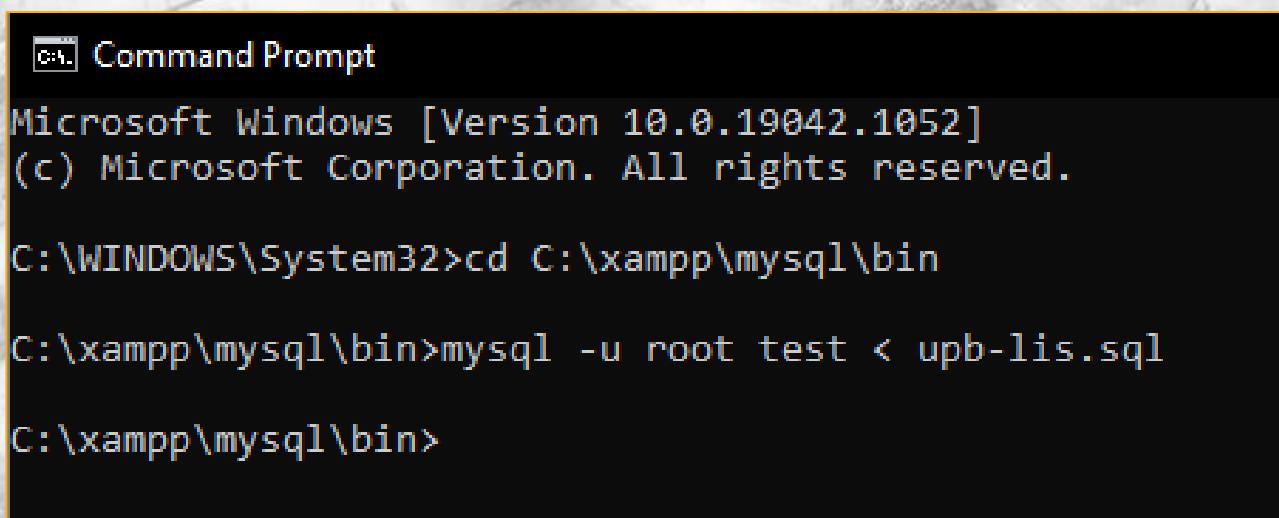

XAMPP APPLICATION

*07

Proceed to this step if the number of rows in step 6 is not accurate

If step 06 does not work, you can manually import the SQL file through a command-line interface or CMD or a terminal. Run the code below and repeat step 6:

```
cd drive:\xampp\mysql\bin  
mysql -u root test < upb-lis.sql
```

The screenshot shows a Windows Command Prompt window titled "Command Prompt". The window displays the following text:

```
Microsoft Windows [Version 10.0.19042.1052]  
(c) Microsoft Corporation. All rights reserved.  
  
C:\WINDOWS\System32>cd C:\xampp\mysql\bin  
  
C:\xampp\mysql\bin>mysql -u root test < upb-lis.sql  
  
C:\xampp\mysql\bin>
```

Disclaimer: Both steps 5 and 7 may take a few minutes to import

08

XAMPP APPLICATION

Insert an entry into the staff table

The screenshot shows the phpMyAdmin interface for the 'staff' table in the 'upb_lis' database. The table has six columns: 'staff_id', 'staff_username', 'staff_firstname', 'staff_lastname', 'staff_password', and 'staff_type'. The 'staff_type' column is currently set to 'admin'. A checkbox for 'Ignore' is checked at the bottom.

Column	Type	Function	Null	Value
staff_id	int(10) unsigned			
staff_username	varchar(20)			user_admin
staff_firstname	varchar(20)			Sample
staff_lastname	varchar(20)			Admin
staff_password	varchar(20)			admin
staff_type	varchar(10)			admin

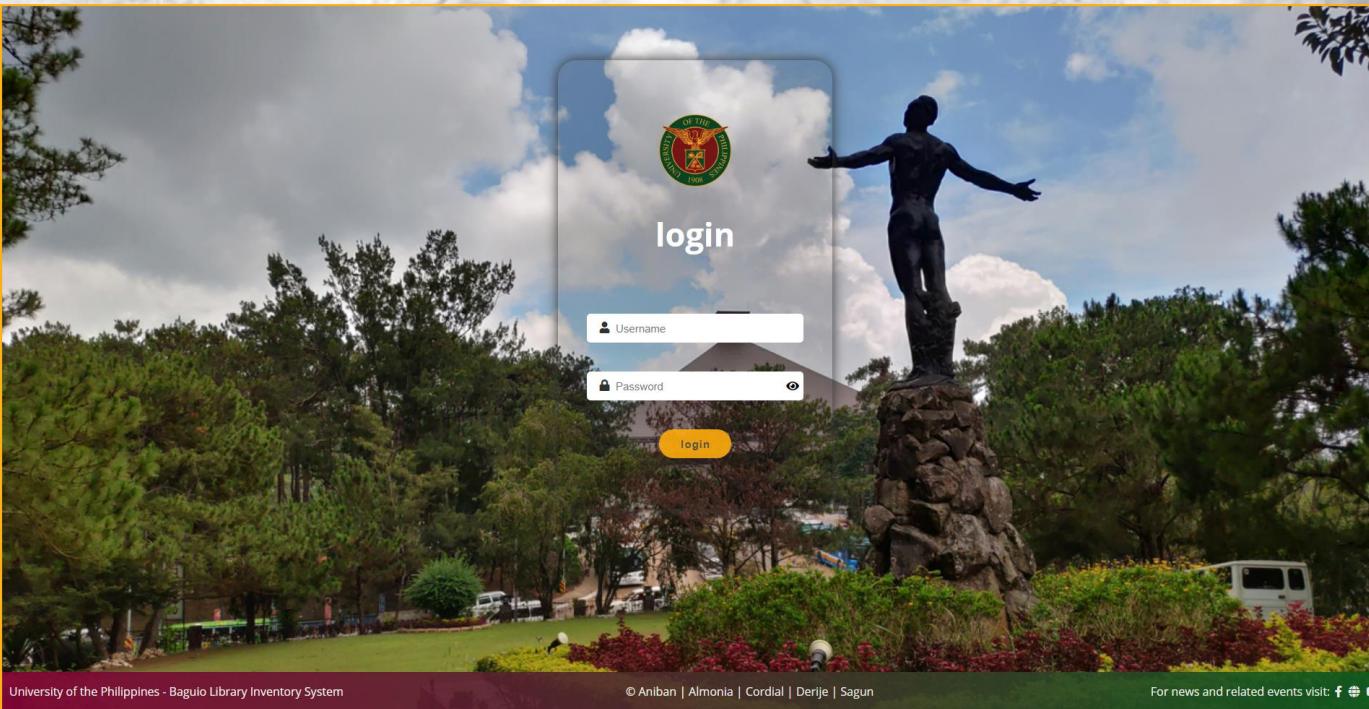

Ignore

09

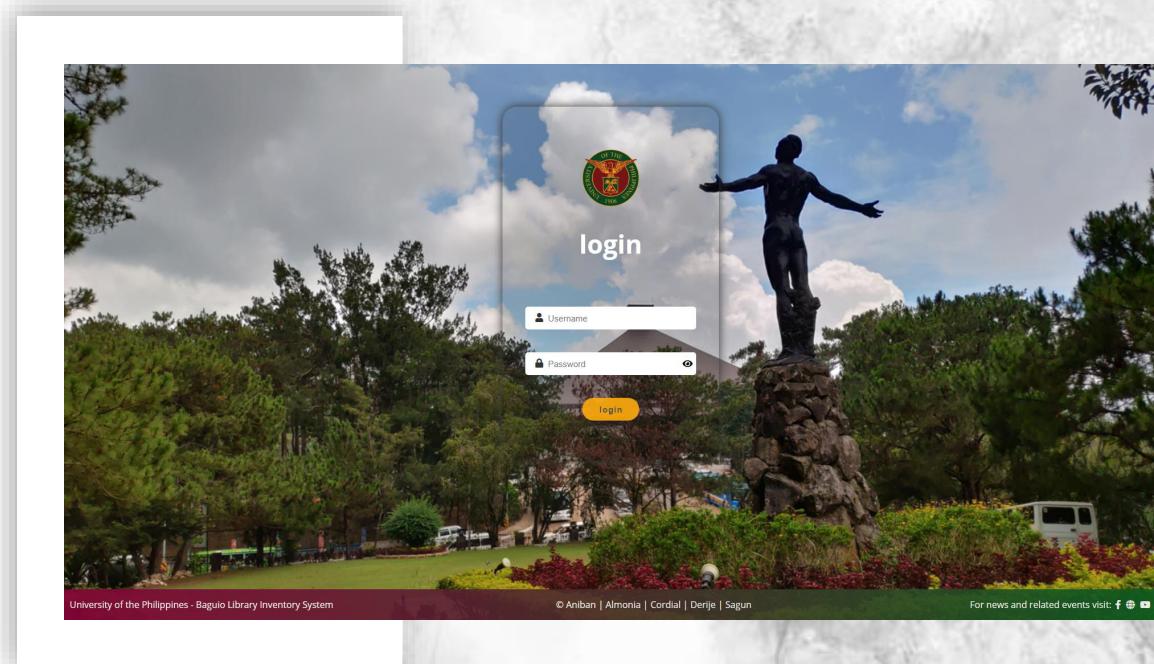

XAMPP APPLICATION

After inserting an entry, in your browser, enter:

localhost/upb-lis/login/index.php

TODOList

What do you need to do? +

Test Task

You Have 1 Pending Tasks.

ANNOUNCEMENTS

A section for important announcements. Content can be seen and accessed by all users. Administrators can also edit and delete old announcements.

CALENDAR

A calendar conveniently placed on the user's dashboard. Calendar shows the current month and highlights the current date.

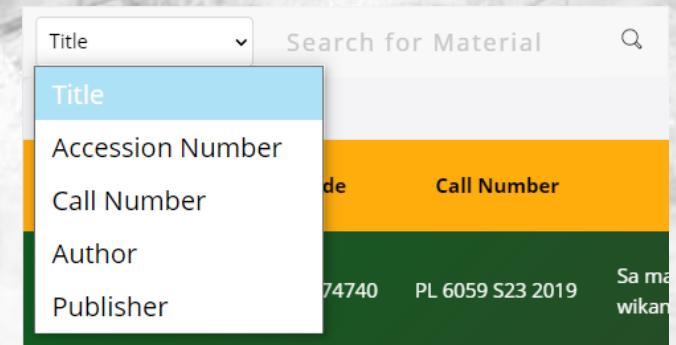

TO-DO LIST

A section for task reminders and notes. Content is unique for every user. List content cannot be accessed by other users, even administrators.

MATERIAL SEARCH BAR

A search bar to easily access specific items in the materials database. Users can search for specific information about a material's title, accession number, call number, author, or publisher.

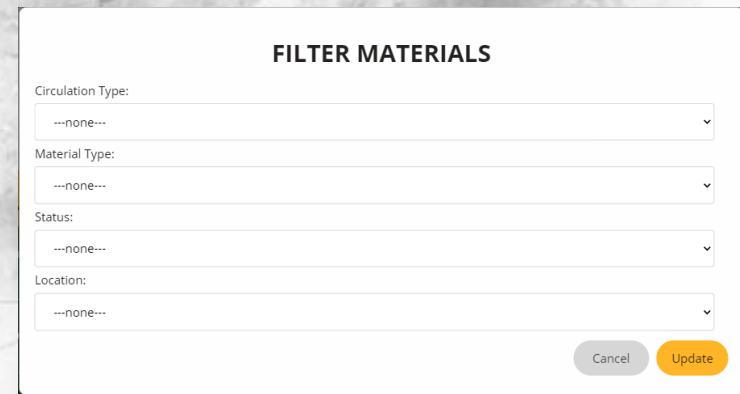

04

MATERIAL FILTER

A feature that allows user to filter the type of materials that would show up on the table. Users can choose and combine different kinds of materials depending on its circulation type, material type, status, and location.

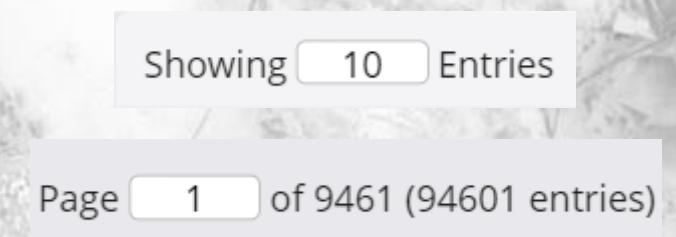

05

NAVIGATION TOOLS

A feature that gives the user an option on how many material entries are going to appear per page on the table. Page navigator for convenient page viewing. Total number of entries also appear beside the page navigator.

06

Accession Number ▼

ADD NEW MATERIAL

Accession Number	Accession Number..

edit

07

SORTING FEATURE

A feature that arranges certain categories alphabetically in ascending or descending order. Arrows indicate whether the contents are arranged in ascending order (up arrow) or in descending order (down arrow). Categories that can be arranged are the Accession Number, Barcode, Call Number, Title, and Inventory Item Number.

08

ADD NEW MATERIAL

Upon clicking the add button under the materials table, a modal pop-up appears to manually input information for a new material. The accession number is necessary to add a new material to the database. Accession numbers are unique for each material.

09

EDIT MATERIAL INFORMATION

Upon clicking the edit button beside each entry, a modal pop-up appears to give the user an option to edit a material's information.

BACK UP & RESTORE

To help prevent the loss of data, a back up feature is available for the users to save a copy of the whole database before doing any deletion or editing of entries.

In the case that the users have to restore the original state of the database, a restore feature is available to revert the system back to its content during the back up.

EXPORT DATA

An export feature is available in the Report Generation page. Upon clicking this icon, the system exports a .csv file of the selected data. This .csv file can be accessed by the user in a spreadsheet program like Microsoft Excel.

ADMIN PRIVILEGES

Administrators are given additional features as compared to a regular user. Mainly, these privileges are only used to help maintain the site and its users. Some privileges include, posting of announcements, accessing the staff page,

15

INVENTORY BY ACCESSION NUMBER

After clicking the Input Accession Number button in the Inventory Page, a modal pop-up will show up and would allow the user to manually input the accession number of the material being inventoried. After adding the material to the inventory list, users can also edit the information of the material on the left side.

GENERATE REPORT

Upon clicking the Generate Report Button, a modal pop-up shows up and asks the user to choose what type of report the user wants to generate. The Inventory option also asks the user to select a year before generating a report about the selected year. The Comparison option generates a report about two selected years by the user.

INVENTORY BY BARCODE SCANNER

After clicking the Scan Barcode button in the Inventory Page, a modal will pop-up and would allow the user to either manually input the barcode of the material or use a barcode scanner to automatically encode the barcode upon scanning. Similar with the input by accession number option, users can edit the information of the material on the left side.

HOW TO USE THE UPB LIBRARY INVENTORY SYSTEM?

The screenshot shows a web-based library inventory system. At the top, there is a search bar with dropdown menus for 'Title' and 'Barcode', and a placeholder 'Search for Material'. Below the search bar is a table displaying search results. The table has columns for Accession Number, Barcode, Call Number, Title, Author, Volume, Year, Edition, Publisher, Publication Year, Circulation Type, and Type. The results listed are:

Accession Number	Barcode	Call Number	Title	Author	Volume	Year	Edition	Publisher	Publication Year	Circulation Type	Type
Vertical File 15	VF-15	Vertical File 15	Industrial ecology : a primer on green strategy for business	Frio, Ma. Mutya L.	0	1998	Industrial Ecology Module	Non-Circulation	Book	Multimedia Material	Cor
VDR-a9	VDR-a9	VDR-a9	Manay po 2 overload		0					Multimedia Material	Cor
VDR-a8	VDR-a8	VDR-a8	Total yoga fire		0					Multimedia Material	Cor
VDR-a7	VDR-a7	VDR-a7	Man's relentless search	Hubbard, L. Ron	0					Multimedia Material	Mu
VDR-a6	VDR-a6	VDR-a6	Unbreakable		0					Multimedia Material	Cor
VDR-a5	VDR-436	VDR-436	Katutubo memory of dances		0					Cordillera-Multimedia	Cor

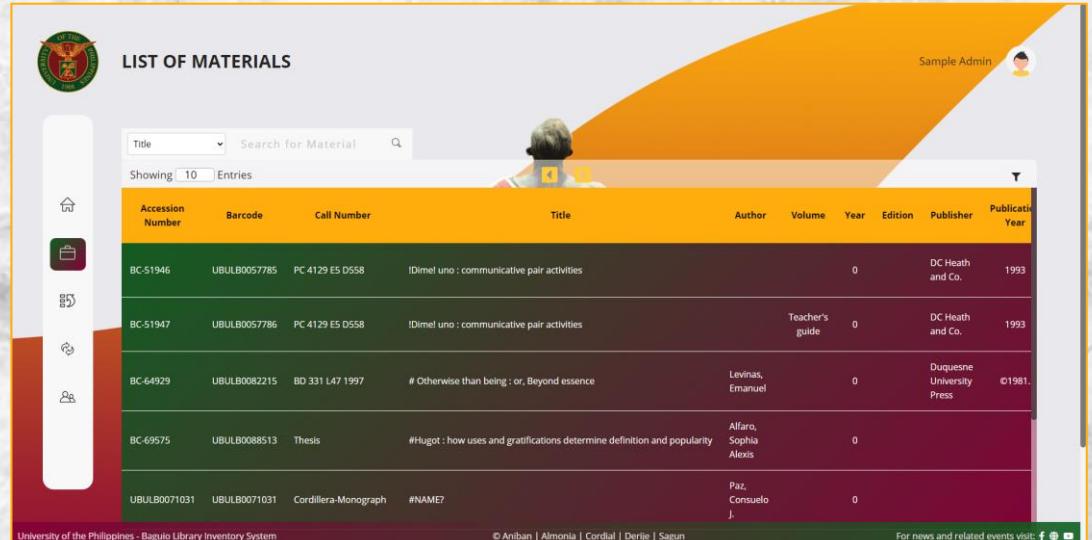

At the bottom of the table, it says 'Page 1 of 9461 (94602 entries)'. To the right of the table is a sidebar for a 'Sample Admin' user, featuring a profile picture, 'Edit Profile', and 'Create Backup' options. The sidebar also includes a 'Logout' link at the bottom.

ADDING A NEW ENTRY

How to manually input a new material in the database?

01

Locate the All Materials button  located at the navigation bar on the left part of the user's screen.

The screenshot shows a web-based library management system interface titled "LIST OF MATERIALS". The page features a header with the university's crest and a "Sample Admin" user profile. On the left, there is a vertical navigation bar with icons for Home, Add New, Edit, and Delete. The main content area displays a table of material entries with the following columns: Accession Number, Barcode, Call Number, Title, Author, Volume, Year, Edition, Publisher, and Publication Year. The table lists five entries:

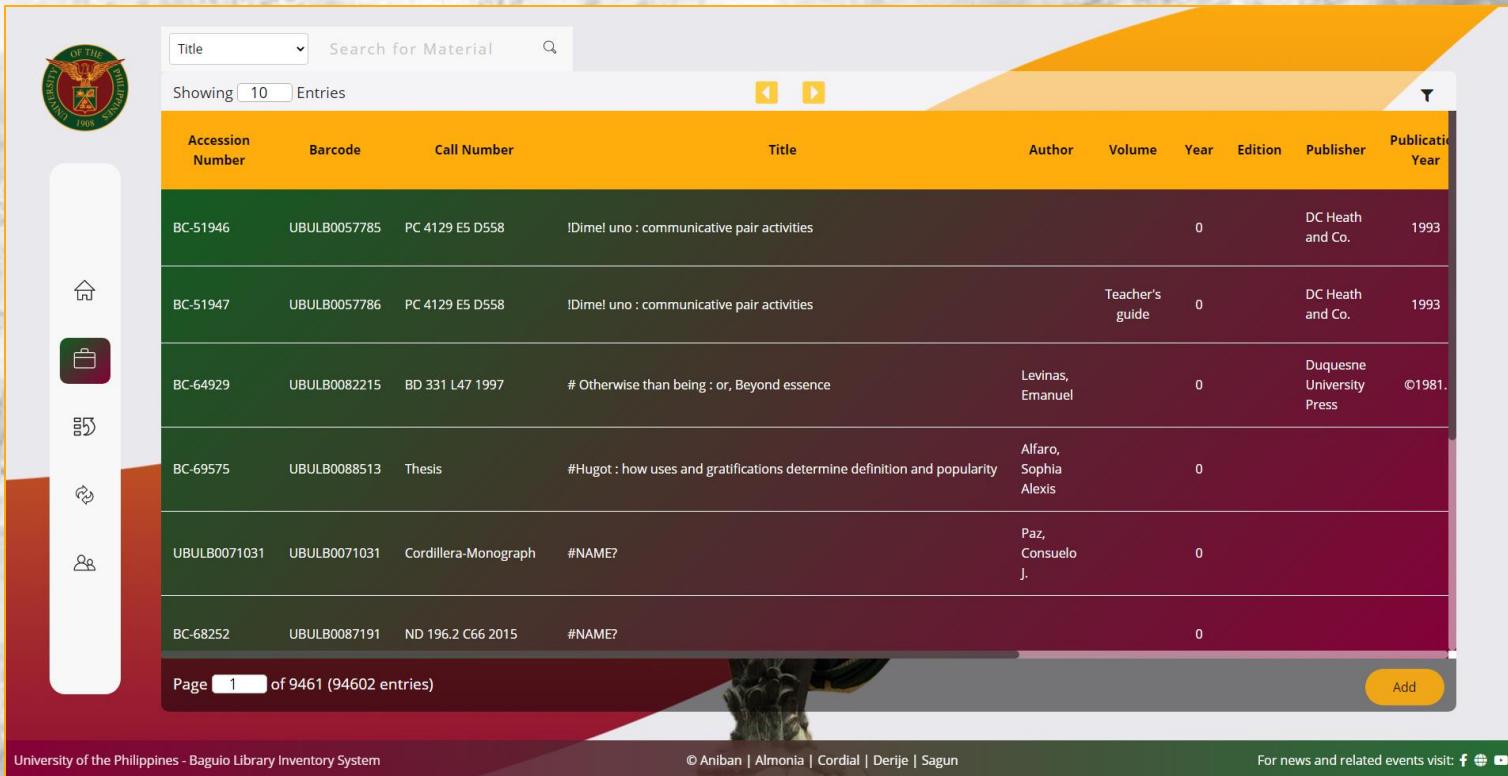

Accession Number	Barcode	Call Number	Title	Author	Volume	Year	Edition	Publisher	Publication Year
BC-51946	UBULB0057785	PC 4129 E5 D558	#Dimel uno : communicative pair activities		0			DC Heath and Co.	1993
BC-51947	UBULB0057786	PC 4129 E5 D558	#Dimel uno : communicative pair activities	Teacher's guide	0			DC Heath and Co.	1993
BC-64929	UBULB0082215	BD 331 L47 1997	# Otherwise than being : or, Beyond essence	Levinas, Emanuel	0			Duquesne University Press	©1981.
BC-69575	UBULB0088513	Thesis	#Hugot : how uses and gratifications determine definition and popularity	Alfaro, Sophia Alexis	0				
	UBULB0071031	UBULB0071031	Cordillera-Monograph	#NAME?	Paz, Consuelo J.	0			

At the bottom of the page, there are links for "University of the Philippines - Baguio Library Inventory System", "© Aniban | Almonia | Cordial | Derije | Sagun", and "For news and related events visit: [f](#) [o](#) [t](#)".

02

ADDING A NEW ENTRY

Scroll down the All Materials page and click the Add button  located on the lower right corner of the screen. A modal pop-up will appear upon clicking the button.

The screenshot shows the 'All Materials' page of the library inventory system. At the top left is the university's logo. To its right is a search bar with dropdown menus for 'Title' and 'Barcode', and a magnifying glass icon. Below the search bar is a message 'Showing 10 Entries'. The main area displays a table of materials with the following columns: Accession Number, Barcode, Call Number, Title, Author, Volume, Year, Edition, Publisher, and Publication Year. The table contains six entries. On the far left of the table is a vertical sidebar with five icons: a house (Home), a briefcase (Materials), a document (Search), a person (User), and a gear (Settings). At the bottom of the page, there is a footer with the text 'University of the Philippines - Baguio Library Inventory System', a copyright notice for Aniban, Almonia, Cordial, Derije, and Sagun, and a link to their social media pages (Facebook, Twitter, YouTube) with the text 'For news and related events visit: f t y'.

EDIT MATERIAL INFORMATION

How to edit a material's information in the database?

01

Locate the All Materials button located at the navigation bar on the left part of the user's screen.

The screenshot shows a web-based library inventory system. At the top, there is a search bar with dropdown menus for 'Title' and 'Search for Material'. Below the search bar, it says 'Showing 10 Entries'. The main area is a table with the following columns: Author, Volume, Year, Edition, Publisher, Publication Year, Circulation Type, Type, Status, Source, Location, Inventory Item Number, Last Year Inventoried, and Action. There are six rows of data in the table. On the far left of the table, there is a vertical sidebar with four icons: a house (Home), a briefcase (Materials), a document with a pencil (Edit), and a person (User). At the bottom of the page, there is a footer with the text 'University of the Philippines - Baguio Library Inventory System', '© Aniban | Almonia | Cordial | Derije | Sagun', and 'For news and related events visit: f g m'.

02

EDIT MATERIAL INFORMATION

Browse and choose a material to edit in the Materials table and click the Edit icon located on the rightmost side of each material. A modal pop-up will appear upon clicking the button.

The screenshot shows a web-based library inventory system interface. On the left, there is a vertical sidebar with icons for Home, Materials, Books, and Circulation. The main area features a search bar at the top with dropdown menus for 'Title' and 'Search for Material'. Below the search bar is a table titled 'Materials' with 10 entries. The table columns include: Author, Volume, Year, Edition, Publisher, Publication Year, Circulation Type, Type, Status, Source, Location, Inventory Item Number, Last Year Inventoried, and Action. Each row in the table has an 'Edit' icon (a yellow circle with a white pencil) in the 'Action' column. The table is set against a background of a university building's facade.

04

INVENTORY USING ACCESSION NUMBER (MANUAL INPUT)

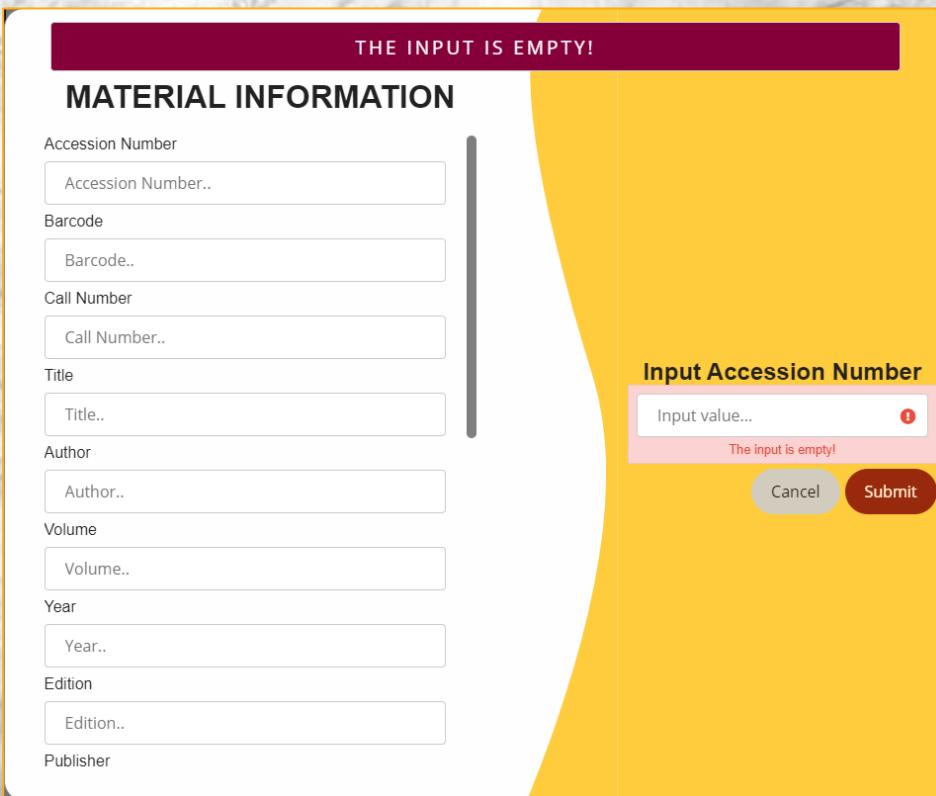

Upon clicking the submit button, a message prompt will appear on top of the modal if the inventory was successful. The material information will also appear on the left side of the modal. The user has an option to edit the inventoried material's information on the fly. Just click on the Save Changes button  when finished.

05

INVENTORY USING ACCESSION NUMBER (MANUAL INPUT)

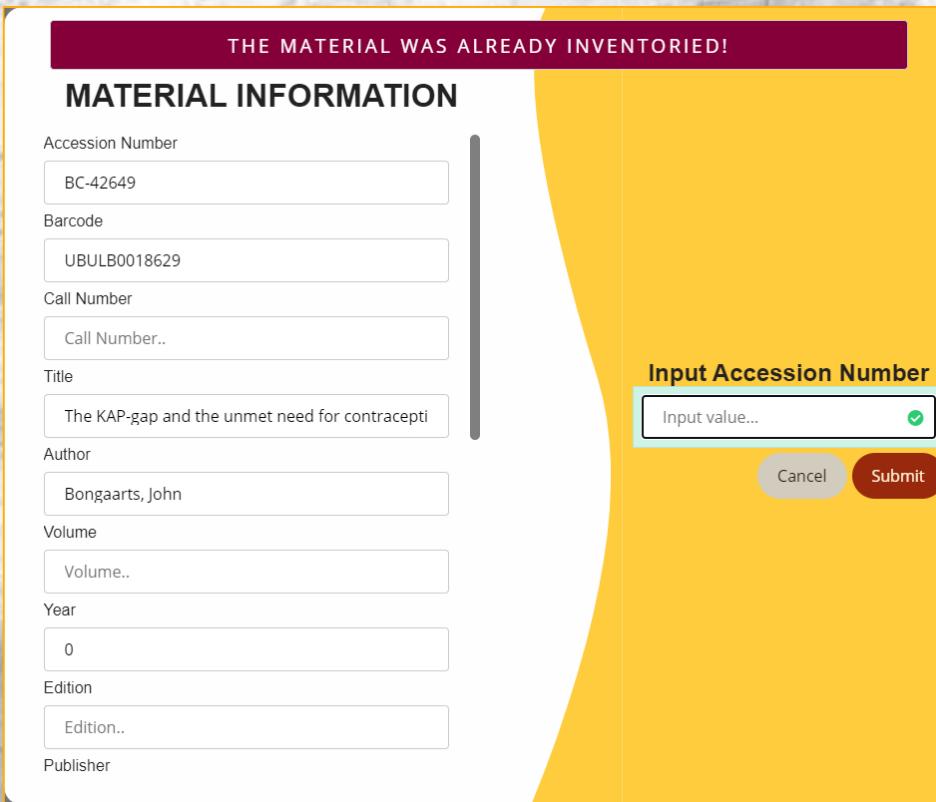

Error prompts may appear when there is an error after clicking the submit button in the Input Accession Number modal. One of these prompts happen when the form is submitted without anything manually inputted. The prompt will appear like the image below.

06

INVENTORY USING ACCESSION NUMBER (MANUAL INPUT)

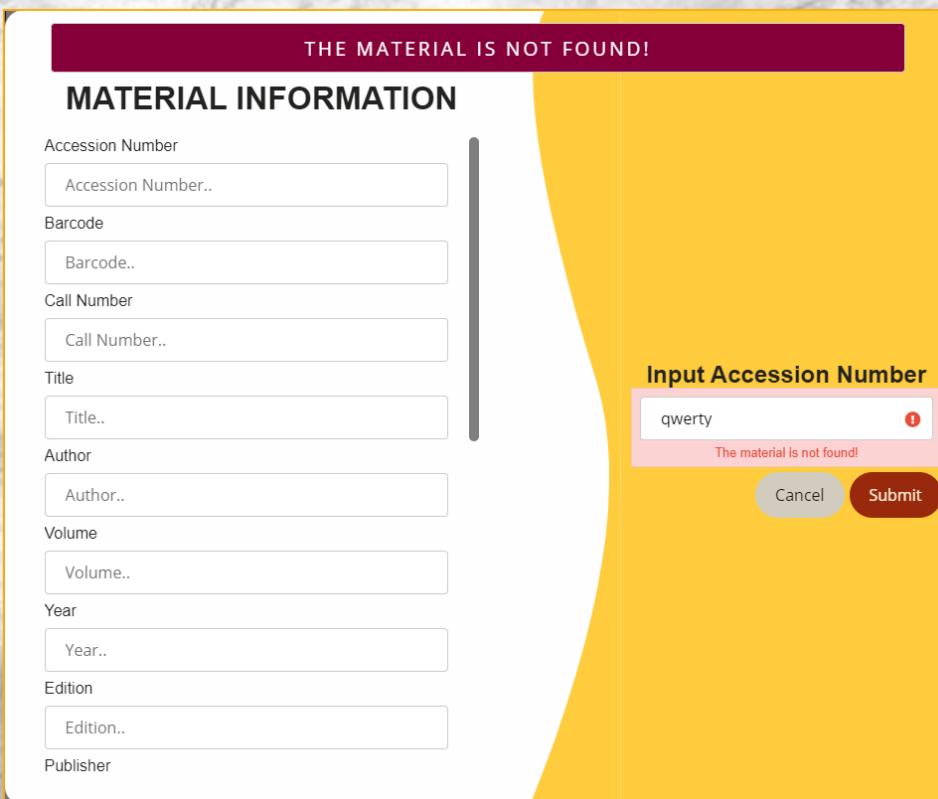

The next error prompt will appear when the user inputs an Accession Number that was already inventoried by the user or by a different user. The error prompt appears like the image reference below. Note that the material's information can still be edited despite the error prompt.

07

INVENTORY USING ACCESSION NUMBER (MANUAL INPUT)

The last error prompt appears when the user inputs an accession number that does not belong to any material in the database. The error prompt appears like the reference image below.

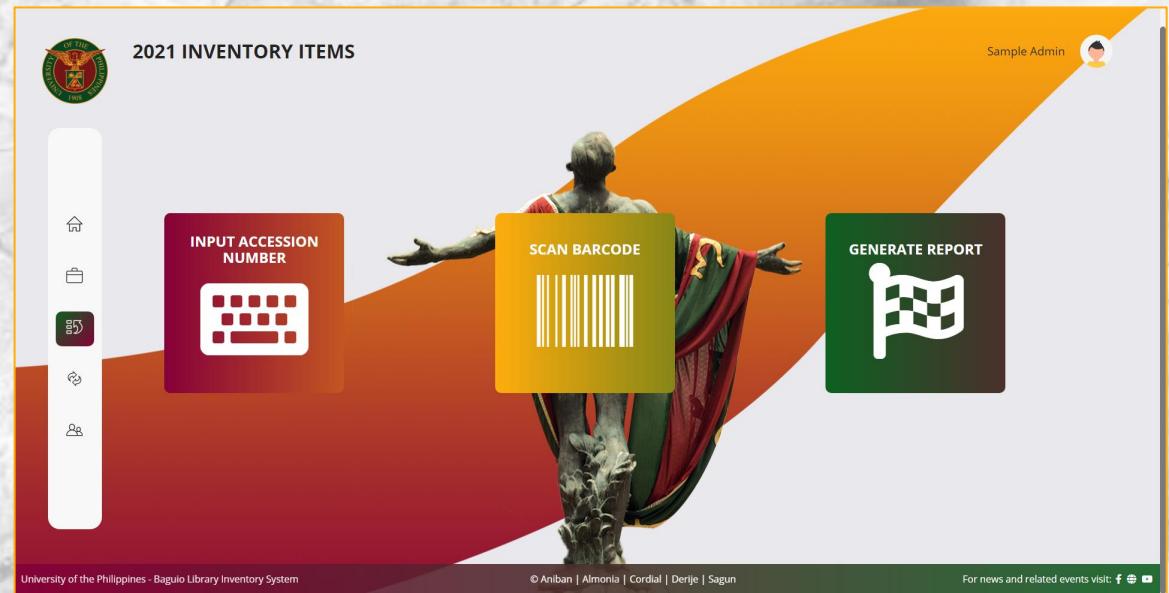

INVENTORY USING BARCODE (AUTOMATED INPUT)

How to inventory through automated input of a material's barcode

01

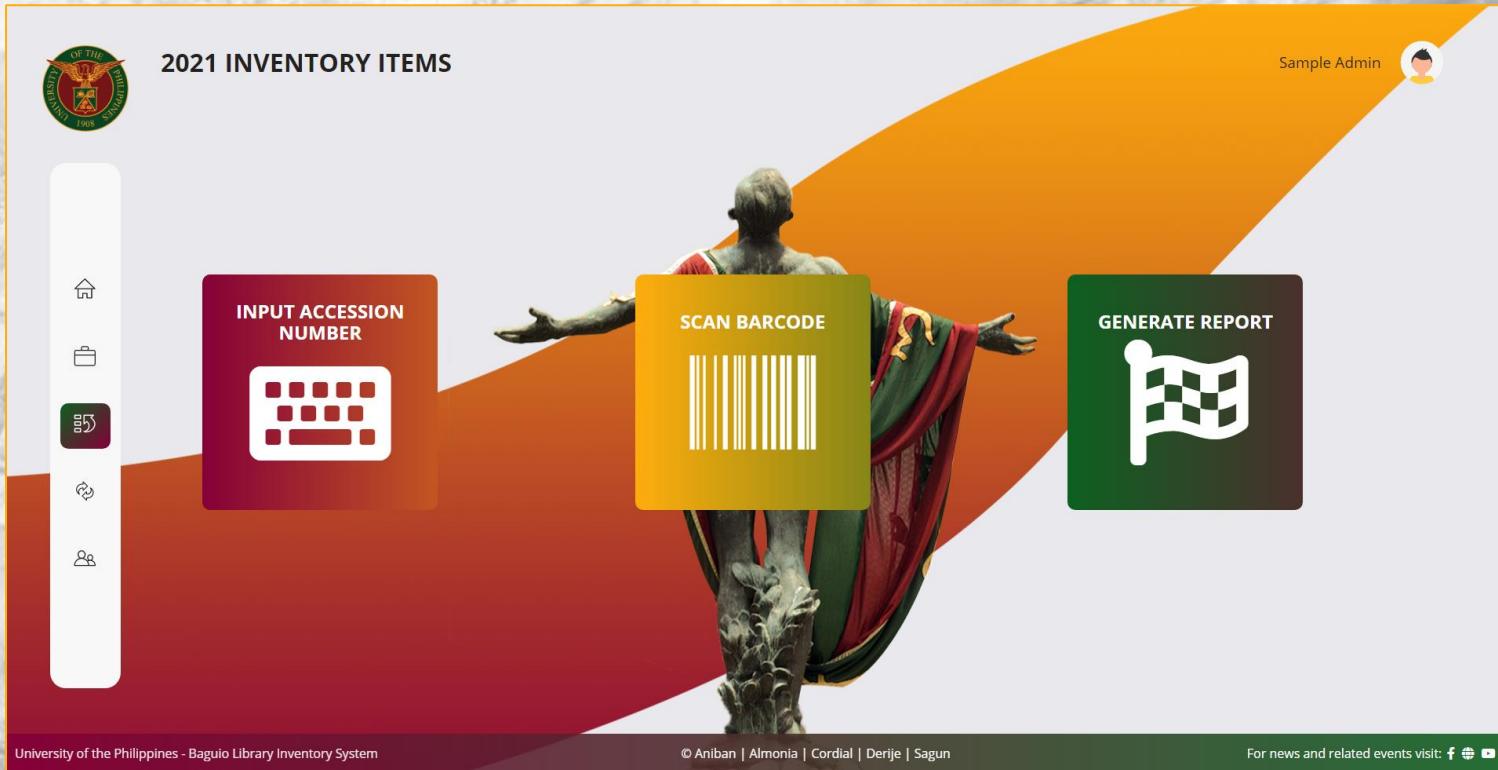

Locate the Inventory button  located at the navigation bar on the left part of the user's screen.

02

INVENTORY USING BARCODE (AUTOMATED INPUT)

On the Inventory page, the user is given three options, for the automated input, click on the Scan Barcode button.  A modal pop-up will appear upon clicking the button.

The screenshot shows the '2021 INVENTORY ITEMS' page. At the top left is the University of the Philippines Baguio logo. On the right is a user profile for 'Sample Admin'. A vertical sidebar on the left contains icons for Home, Inventory, Reports, and Help. The main area features a statue of a man in a red robe with arms outstretched. Three large buttons are overlaid: 'INPUT ACCESSION NUMBER' with a keyboard icon, 'SCAN BARCODE' with a barcode icon (which is highlighted in yellow), and 'GENERATE REPORT' with a checkered flag icon. The bottom of the screen includes a footer with the text 'University of the Philippines - Baguio Library Inventory System', copyright information for Aniban, Almonia, Cordial, Derije, and Sagun, and links for news and events.

03

INVENTORY USING BARCODE (AUTOMATED INPUT)

A modal pop up that looks like the one below will appear after clicking the Scan Barcode button. The user has the option to use a barcode scanner or manually input the material's barcode. Some barcode scanners automatically enter after scanning. If scanner does not automatically enter or if the barcode is manually inputted, press Enter to add the material to the inventory.

04

INVENTORY USING BARCODE (AUTOMATED INPUT)

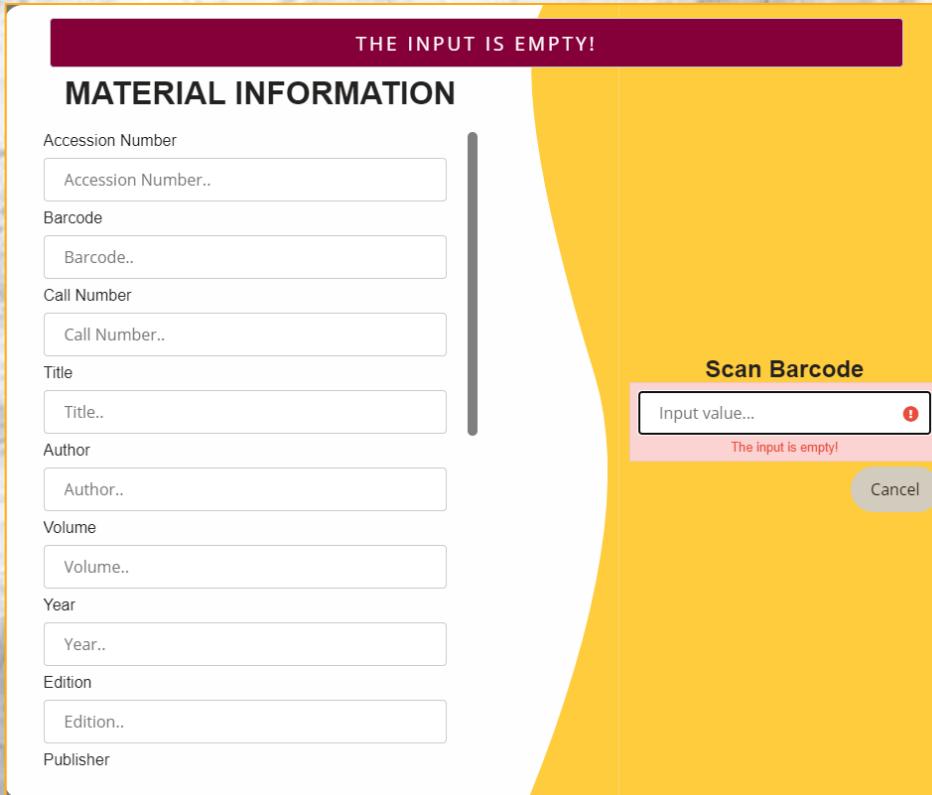

Once the material's barcode is entered, the material's information will appear on the left side of the modal. Likewise with the Input Accession Number modal, the user can edit the material's information on the fly. Just click on the Save Changes button  when finished.

05

INVENTORY USING BARCODE (AUTOMATED INPUT)

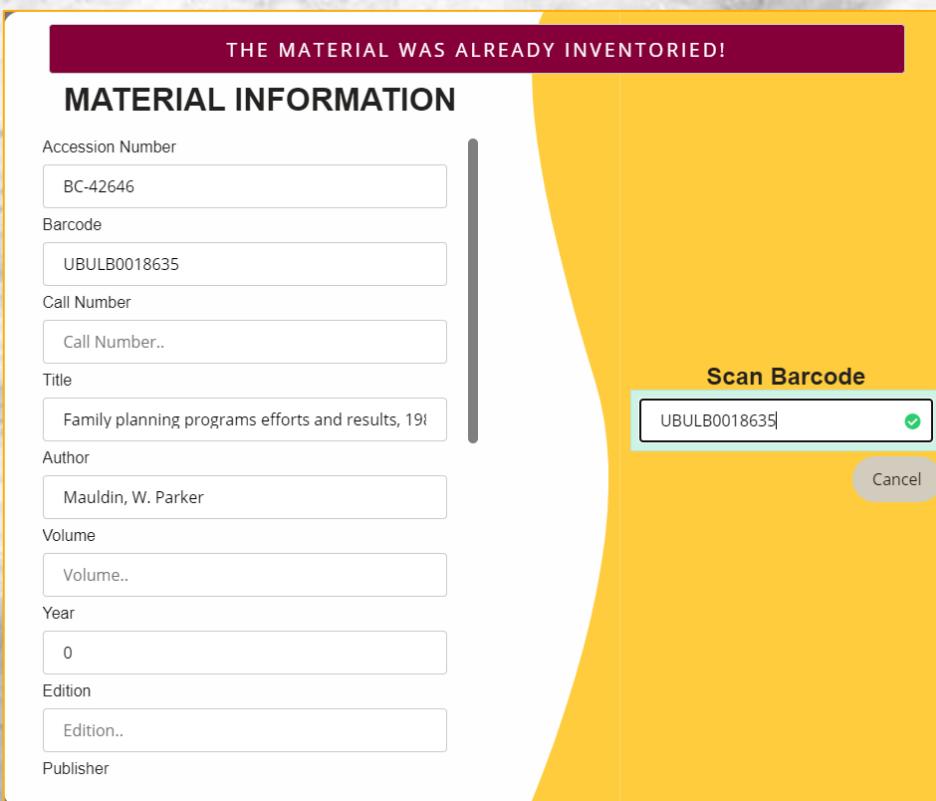

Like with the Input Accession Number option, error prompts may appear when there is an error after entering something in the Scan Barcode modal. One of these prompts happen when the form is entered without anything inputted. The prompt will appear like the image below.

06

INVENTORY USING BARCODE (AUTOMATED INPUT)

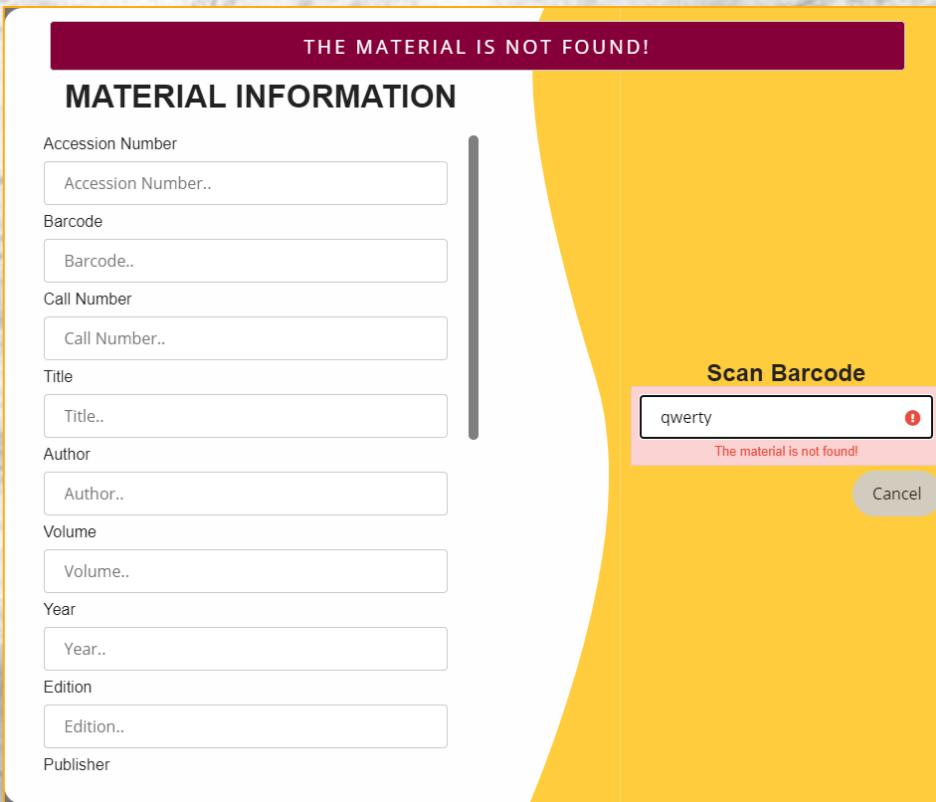

The next error prompt will appear when the user enters a Barcode that was already inventoried by the user or by a different user. The error prompt appears like the image reference below. Note that the material's information can still be edited despite the error prompt.

07

INVENTORY USING BARCODE (AUTOMATED INPUT)

The last error prompt appears when the user enters a barcode that does not belong to any material in the database. The error prompt appears like the reference image below.

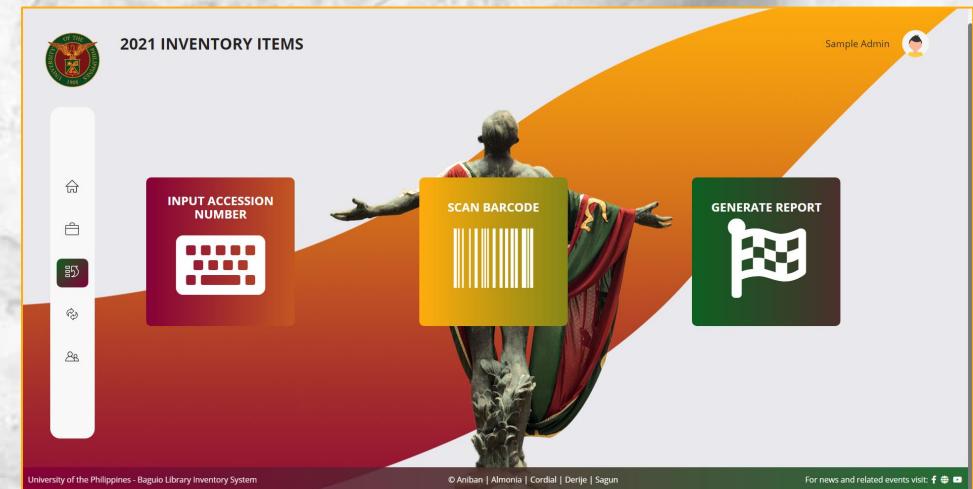

MATERIALS REPORT GENERATION

How to generate a report
on the database's
materials?

01

Locate the Inventory button ⠁ located at the navigation bar on the left part of the user's screen.

MATERIALS REPORT GENERATION

02

On the Inventory page, the user is given three options, for the material report generation, click on the Generate Report button.

A modal pop-up will appear upon clicking the button.

The screenshot shows the '2021 INVENTORY ITEMS' page. At the top left is the university's crest. On the right, there is a user profile for 'Sample Admin'. A vertical sidebar on the left contains icons for Home, Inventory, Reports, and Help. The main area features three buttons: 'INPUT ACCESSION NUMBER' with a keyboard icon, 'SCAN BARCODE' with a barcode icon, and 'GENERATE REPORT' with a checkered flag icon. In the background, there is a large image of a classical statue with arms outstretched. The footer includes the text 'University of the Philippines - Baguio Library Inventory System', copyright information for Aniban, Almonia, Cordial, Derije, and Sagun, and links for news and events.

MATERIALS REPORT GENERATION

08

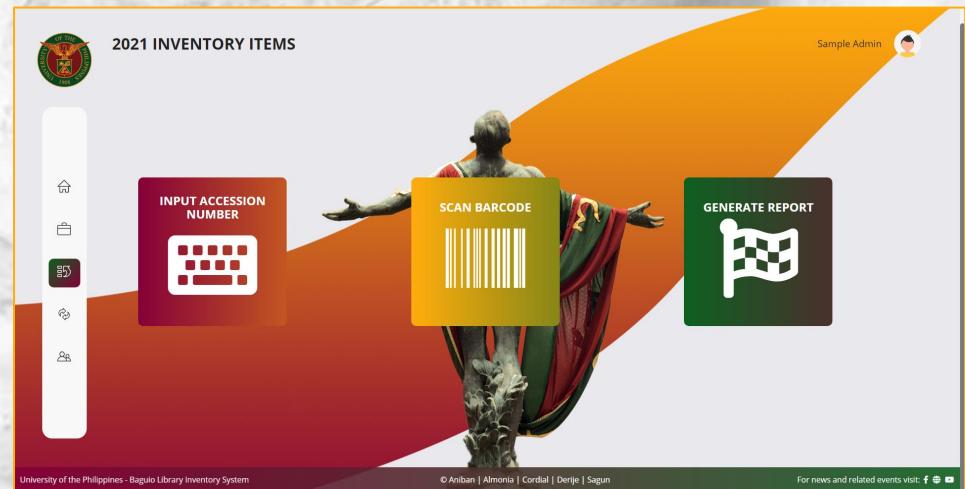

The exported .csv file looks something like the reference photo below. The exported file contains all necessary information stored in the database. This data can now be used by the user for whatever purpose it may serve.

MATERIALS REPORT GENERATION

How to generate a report
on the inventory count?

01

Locate the Inventory button  located at the navigation bar on the left part of the user's screen.

INVENTORY REPORT GENERATION

02

On the Inventory page, the user is given three options, for the inventory report generation, click on the Generate Report button. A modal pop-up will appear upon clicking the button.

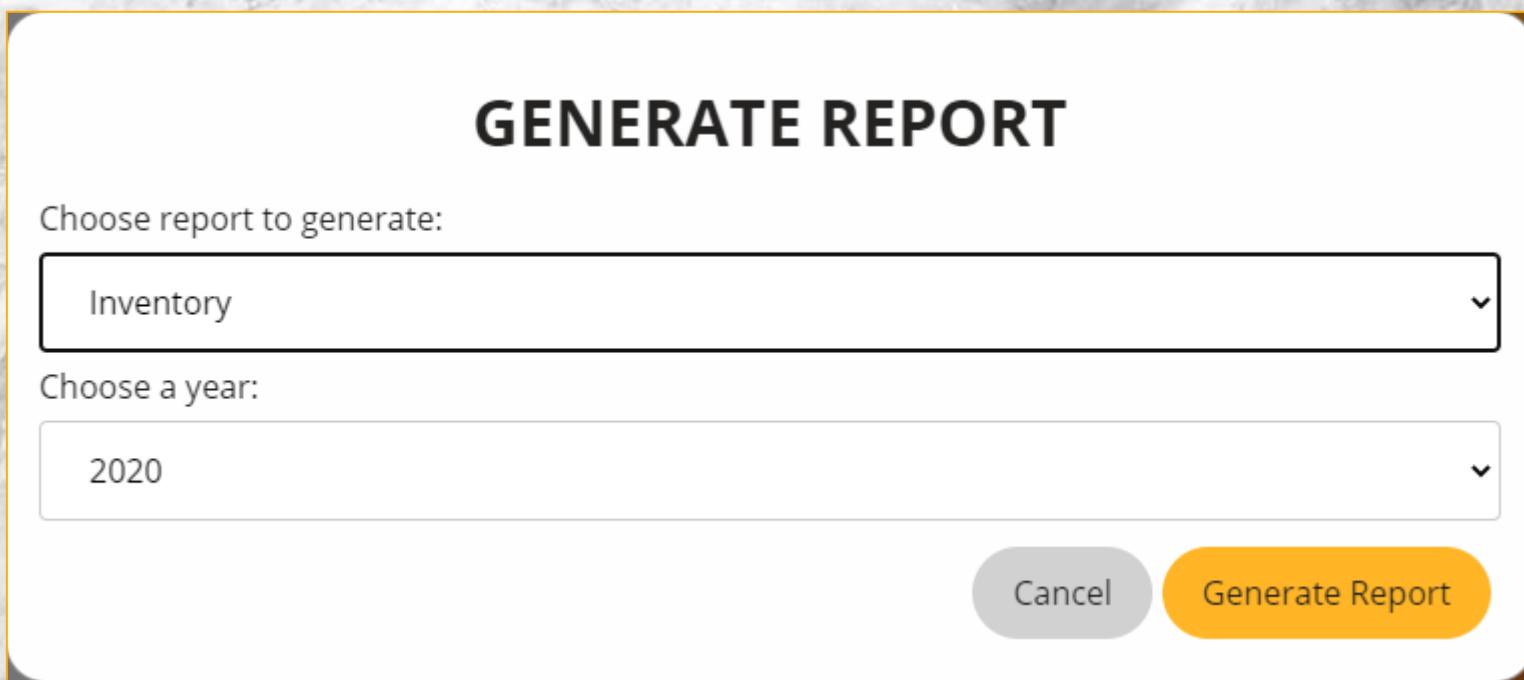

The screenshot shows the homepage of the University of the Philippines Baguio Library Inventory System. At the top left is the university's logo. To its right is the title "2021 INVENTORY ITEMS". On the far right, there is a user profile for "Sample Admin" with a small profile picture. Below the title, there is a navigation menu on the left with icons for Home, Bag, Books, and People. In the center, there are three main interactive buttons: "INPUT ACCESSION NUMBER" with a keyboard icon, "SCAN BARCODE" with a barcode icon, and "GENERATE REPORT" with a checkered racing flag icon. The background features a large, stylized statue of a person in traditional attire. The bottom of the screen contains footer text: "University of the Philippines - Baguio Library Inventory System", "© Aniban | Almonia | Cordial | Derije | Sagun", and "For news and related events visit: f g m".

INVENTORY REPORT GENERATION

03

A modal pop up that looks like the one below will appear after clicking the Generate Report button. The user has the option to choose what report to generate. For this instance, choose the Inventory option. Next, choose a year of inventory. Then, press the Generate Report button.

04

INVENTORY REPORT GENERATION

The user will then be redirected to a page that looks like the reference photo below. A summary report of the total number of materials, inventoried and not inventoried materials, not acquired, and new acquisitions are shown. Every category, except the total number of materials, is clickable. Clicking on one category will show all the materials under that category.

The screenshot shows a web-based inventory report interface. At the top left is the university's logo. To its right, the title "2021 INVENTORY REPORT (AS OF JUN 19, 2021 - 5:16:17 AM)" is displayed. On the far right, there is a "Sample User" icon. The main content area features a large, stylized graphic of a figure in red and green robes with arms outstretched, set against a background of orange and red diagonal stripes. Below this graphic, a summary table provides the following data:

Total Number of Materials: 94601					
Inventoried:	20001	Not Inventoried:	59999	Not Acquired:	14601
New Acquisitions:	19999				

To the left of the main content is a vertical sidebar with four icons: a house (Home), a briefcase (Materials), a document with a barcode (Inventory), and a gear (Settings).

At the bottom of the page, the footer contains the text "University of the Philippines - Baguio Library Inventory System" and "© Aniban | Almonia | Cordial | Derije | Sagun". It also includes links for social media and news: "For news and related events visit: f g+ t".

05

INVENTORY REPORT GENERATION

For example, the user clicks on the number beside the Inventoried materials, upon clicking the number, the user is shown a table of materials that has the conditions of what category the user chose. For this instance, the user is shown a table of inventoried materials.

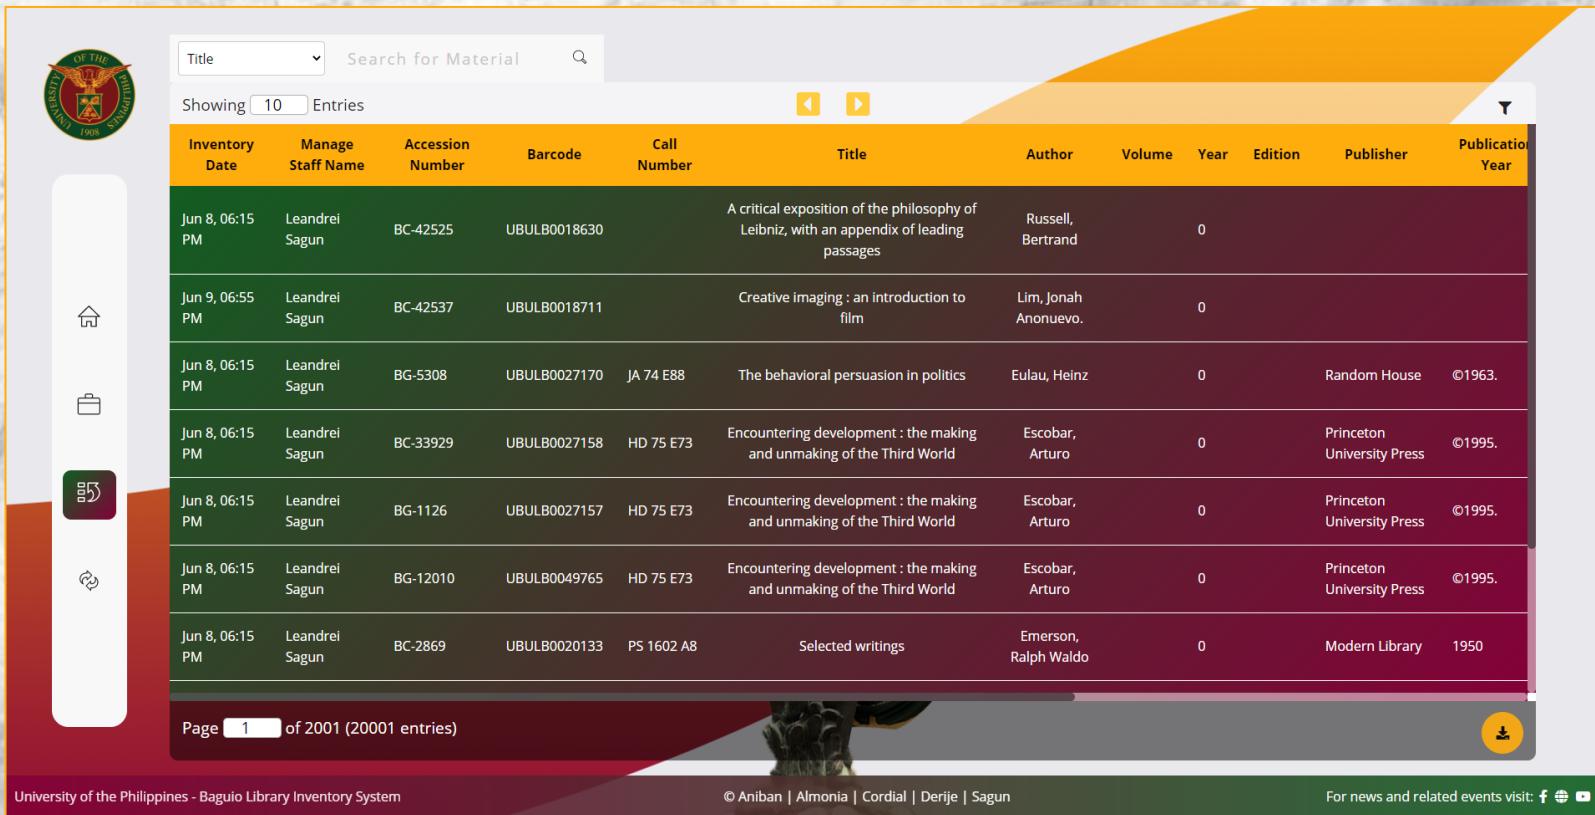

The screenshot shows a web-based inventory report interface. At the top left is the University of the Philippines Baguio logo. In the center, the title "2021 INVENTORY REPORT (AS OF JUN 19, 2021 - 5:16:17 AM)" is displayed. On the right, there is a "Sample User" profile icon. Below the title, a summary table provides the total number of materials and their categories:

Total Number of Materials: 94601					
Inventoried:	20001	Not Inventoried:	59999	New Acquisitions:	14601
Not Acquired:	19999				

A large, ornate statue of a figure in traditional attire is visible in the background of the report area. To the left of the report area is a vertical sidebar with four icons: a house (Home), a briefcase (Inventory), a document with a gear (Reports), and a circular arrow (Search). The bottom of the page contains the footer text: "University of the Philippines - Baguio Library Inventory System", "© Aniban | Almonia | Cordial | Derije | Sagun", and "For news and related events visit: [Facebook](#) [Twitter](#) [YouTube](#)".

INVENTORY REPORT GENERATION

The table that will appear is similar to the one that can be seen in the All Materials page, except that materials cannot be added and edited here. Materials listed depend on what category the user chose. On the bottom right corner, an export button  is available for data exportation.

The screenshot shows a web-based library inventory system interface. At the top left is the university's logo. To its right is a search bar with dropdown menus for 'Title' and 'Search for Material'. Below the search bar is a table header with columns: Inventory Date, Manage Staff Name, Accession Number, Barcode, Call Number, Title, Author, Volume, Year, Edition, Publisher, and Publication Year. The table body contains seven rows of data. The first row lists 'Jun 8, 06:15 PM' as the inventory date, 'Leandrei Sagun' as the staff name, 'BC-42525' as the accession number, 'UBULB0018630' as the barcode, and 'A critical exposition of the philosophy of Leibniz, with an appendix of leading passages' as the title. The second row lists 'Jun 9, 06:55 PM' as the inventory date, 'Leandrei Sagun' as the staff name, 'BC-42537' as the accession number, 'UBULB0018711' as the barcode, and 'Creative imaging : an introduction to film' as the title. The third row lists 'Jun 8, 06:15 PM' as the inventory date, 'Leandrei Sagun' as the staff name, 'BG-5308' as the accession number, 'UBULB0027170' as the barcode, 'JA 74 E88' as the call number, and 'The behavioral persuasion in politics' as the title. The fourth row lists 'Jun 8, 06:15 PM' as the inventory date, 'Leandrei Sagun' as the staff name, 'BC-33929' as the accession number, 'UBULB0027158' as the barcode, 'HD 75 E73' as the call number, and 'Encountering development : the making and unmaking of the Third World' as the title. The fifth row lists 'Jun 8, 06:15 PM' as the inventory date, 'Leandrei Sagun' as the staff name, 'BG-1126' as the accession number, 'UBULB0027157' as the barcode, 'HD 75 E73' as the call number, and 'Encountering development : the making and unmaking of the Third World' as the title. The sixth row lists 'Jun 8, 06:15 PM' as the inventory date, 'Leandrei Sagun' as the staff name, 'BG-12010' as the accession number, 'UBULB0049765' as the barcode, 'HD 75 E73' as the call number, and 'Encountering development : the making and unmaking of the Third World' as the title. The seventh row lists 'Jun 8, 06:15 PM' as the inventory date, 'Leandrei Sagun' as the staff name, 'BC-2869' as the accession number, 'UBULB0020133' as the barcode, 'PS 1602 A8' as the call number, and 'Selected writings' as the title. The bottom of the table shows a footer with 'Page 1 of 2001 (20001 entries)' and a yellow export button with a download icon.

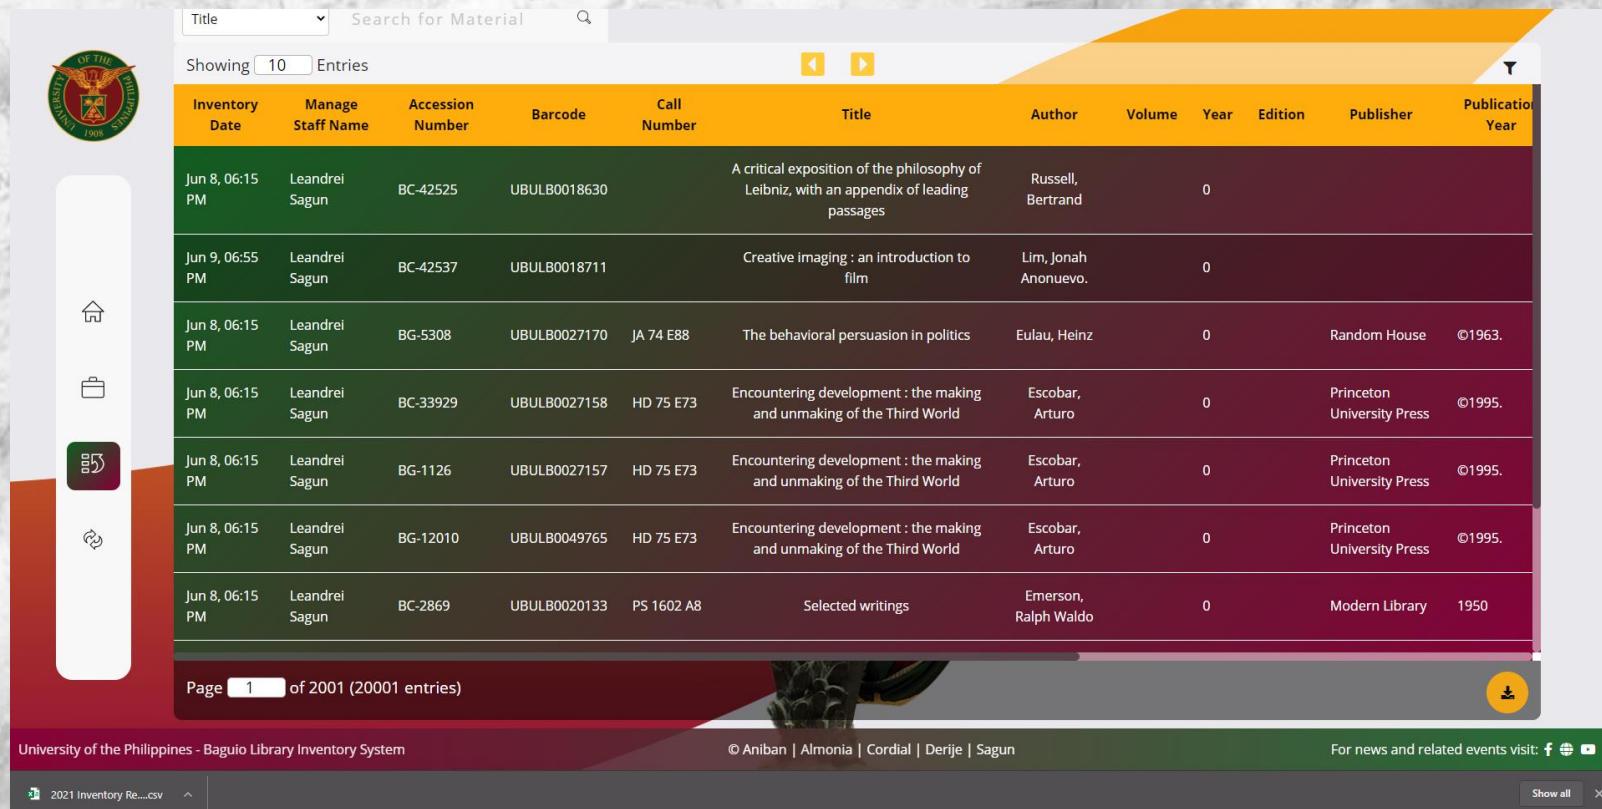

Inventory Date	Manage Staff Name	Accession Number	Barcode	Call Number	Title	Author	Volume	Year	Edition	Publisher	Publication Year

COMPARISON REPORT GENERATION

How to generate a comparison report on the inventory data of two years?

01

Locate the Inventory button  located at the navigation bar on the left part of the user's screen.

02

COMPARISON REPORT GENERATION

On the Inventory page, the user is given three options, for the comparison report generation, click on the Generate Report button.

A modal pop-up will appear upon clicking the button.

The screenshot shows the '2021 INVENTORY ITEMS' page. At the top left is the university's crest. On the right, there is a profile picture for 'Sample Admin'. A vertical sidebar on the left contains icons for Home, Inventory, Reports, and Help. The main area features three large buttons: 'INPUT ACCESSION NUMBER' with a keyboard icon, 'SCAN BARCODE' with a barcode icon, and 'GENERATE REPORT' with a checkered flag icon. In the background, there is a large image of a classical statue with arms outstretched. The footer includes the text 'University of the Philippines - Baguio Library Inventory System', copyright information for Aniban, Almonia, Cordial, Derije, and Sagun, and links for news and events.

COMPARISON REPORT GENERATION

03

A modal pop up that looks like the one below will appear after clicking the Generate Report button. The user has the option to choose what report to generate. For this instance, choose the Comparison option. The user has the option to choose two years for comparison. Then, press the Generate Report button.

Generate Report

GENERATE REPORT

Choose report to generate:

Comparison

Choose first year:

2020

Choose second year:

2021

Cancel

Generate Report

04

COMPARISON REPORT GENERATION

The user will then be redirected to a page that looks like the reference photo below. A summary of inventory data between the two years is presented on the page. Every category is clickable. Clicking on one category will show all the materials under that category.

The screenshot shows a comparison report for the University of the Philippines Baguio Library Inventory System. The title "2020 AND 2021 INVENTORY COMPARISON" is at the top left, next to the university's logo. On the right, there is a profile picture for "Sample User". The interface has a sidebar with icons for Home, Catalog, and Reports. The main content area is divided into two sections: "2020" and "2021". In the 2020 section, the data is:

Category	Value
Inventoried:	0
Not Inventoried:	60001
Not Acquired:	34600

In the 2021 section, the data is:

Category	Value
Inventoried:	20001
Not Inventoried:	59999
New Acquisitions:	14601

Below these sections are four cards summarizing the overlap of materials:

- Materials inventoried in 2020 and 2021: 0
- Materials inventoried in 2020 only: 0
- Materials inventoried in 2021 only: 2
- Materials not inventoried in 2020 and 2021: 59999

At the bottom, there are links to the University of the Philippines Baguio Library Inventory System, copyright information, and social media links for news and events.

05

COMPARISON REPORT GENERATION

For example, the user clicks on the number under the Materials not inventoried in 2020 and 2021, upon clicking the number, the user is shown a table of materials that has the conditions of what category the user chose. For this instance, the user is shown a table of materials that were not inventoried in both years.

The screenshot shows a web-based inventory comparison tool. At the top left is the University of the Philippines Baguio logo. To its right is the title "2020 AND 2021 INVENTORY COMPARISON". On the far right is a user profile placeholder labeled "Sample User". A vertical sidebar on the left contains icons for Home, Catalog, and Reports, with the Reports icon being purple and highlighted. The main content area is divided into two sections: "2020" on the left and "2021" on the right. Each section displays three data points: Inventoried (0 for 2020, 20001 for 2021), Not Inventoried (60001 for 2020, 59999 for 2021), and Not Acquired (34600 for 2020, 14601 for 2021). Below these sections are four summary boxes: "Materials inventoried in 2020 and 2021" (0), "Materials inventoried in 2020 only" (0), "Materials inventoried in 2021 only" (2), and "Materials not inventoried in 2020 and 2021" (59999). The background features a faint watermark of a person holding a book.

Category	2020	2021
Inventoried	0	20001
Not Inventoried	60001	59999
Not Acquired	34600	14601

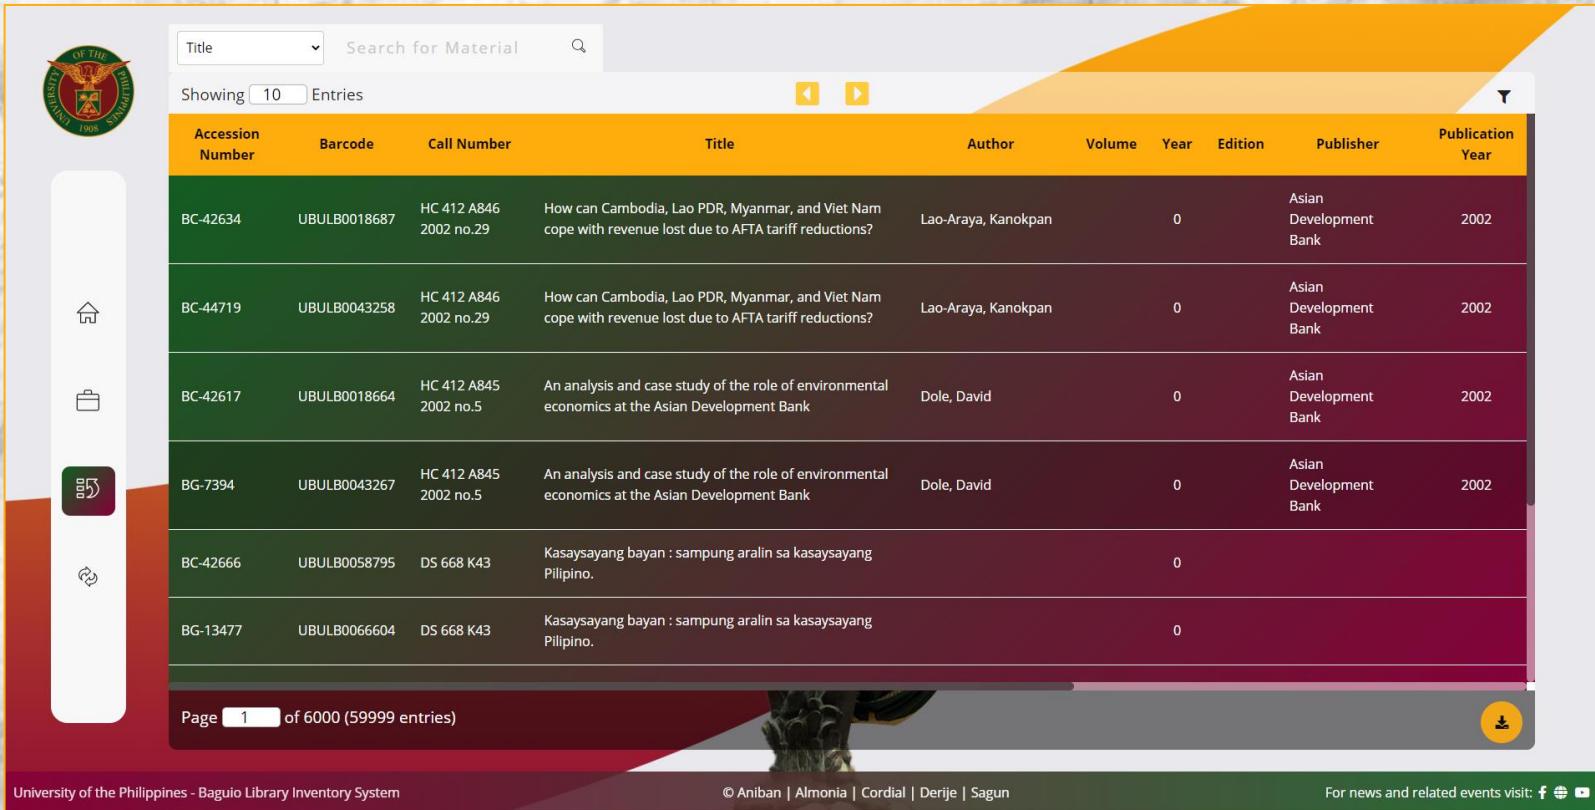

Category	Count
Materials inventoried in 2020 and 2021	0
Materials inventoried in 2020 only	0
Materials inventoried in 2021 only	2
Materials not inventoried in 2020 and 2021	59999

06

COMPARISON REPORT GENERATION

The table that will appear is similar to the one that can be seen in the All Materials page, except that materials cannot be added and edited here. Materials listed depend on what category the user chose. On the bottom right corner, an export button  is available for data exportation.

The screenshot shows a library inventory system interface. At the top left is the university's logo. To its right is a search bar with dropdown menus for 'Title' and 'Barcode', a 'Search for Material' input field, and a magnifying glass icon. Below the search bar is a message 'Showing 10 Entries'. To the right of the search area are navigation icons for back and forward. The main content is a table with the following columns: Accession Number, Barcode, Call Number, Title, Author, Volume, Year, Edition, Publisher, and Publication Year. The table contains six rows of data. At the bottom left is a page navigation bar showing 'Page 1 of 6000 (59999 entries)'. On the far right, there is a yellow download icon. The footer at the bottom of the page includes links to various university departments and a social media section.

07

COMPARISON REPORT GENERATION

Upon clicking the export button,  a .csv file will be exported. This .csv file contains all the materials listed under the chosen category of the user. The .csv file is viewable using a spreadsheet software like Microsoft Excel.

The screenshot shows a library management system interface. On the left, there's a vertical sidebar with icons for Home, Bag, Books, and a magnifying glass. The main area has a search bar at the top with dropdown menus for 'Title' and 'Search for Material'. Below the search bar, it says 'Showing 10 Entries'. The data is presented in a table with the following columns: Accession Number, Barcode, Call Number, Title, Author, Volume, Year, Edition, Publisher, and Publication Year. There are six rows of data, each with a yellow 'Export' button at the end. The first row is for a book by Lao-Araya, Kanokpan. The second row is for the same book. The third row is for a book by Dole, David. The fourth row is for the same book. The fifth row is for a book by Kasaysayang bayan. The sixth row is for the same book. At the bottom, it says 'Page 1 of 6000 (59999 entries)' and has a 'CSV' export button.

ADD NEW USER

How to add a new user in
the database?

01

Locate the Manage Staff
button  located at the
navigation bar on the left
part of the user's screen.

NOTE: Only admin users
can access this page.

ADD NEW USER

02

On the Manage Staff page, a table containing the users of the database is shown. To add a new user to the database, click the Add button. A modal pop up will show upon clicking the button.

MANAGE STAFF

Username	First Name	Last Name	Password	Type	Action

EDIT EXISTING USER INFORMATION

How to edit an existing user's *information in the database?*

01

Locate the Manage Staff button  located at the navigation bar on the left part of the user's screen.

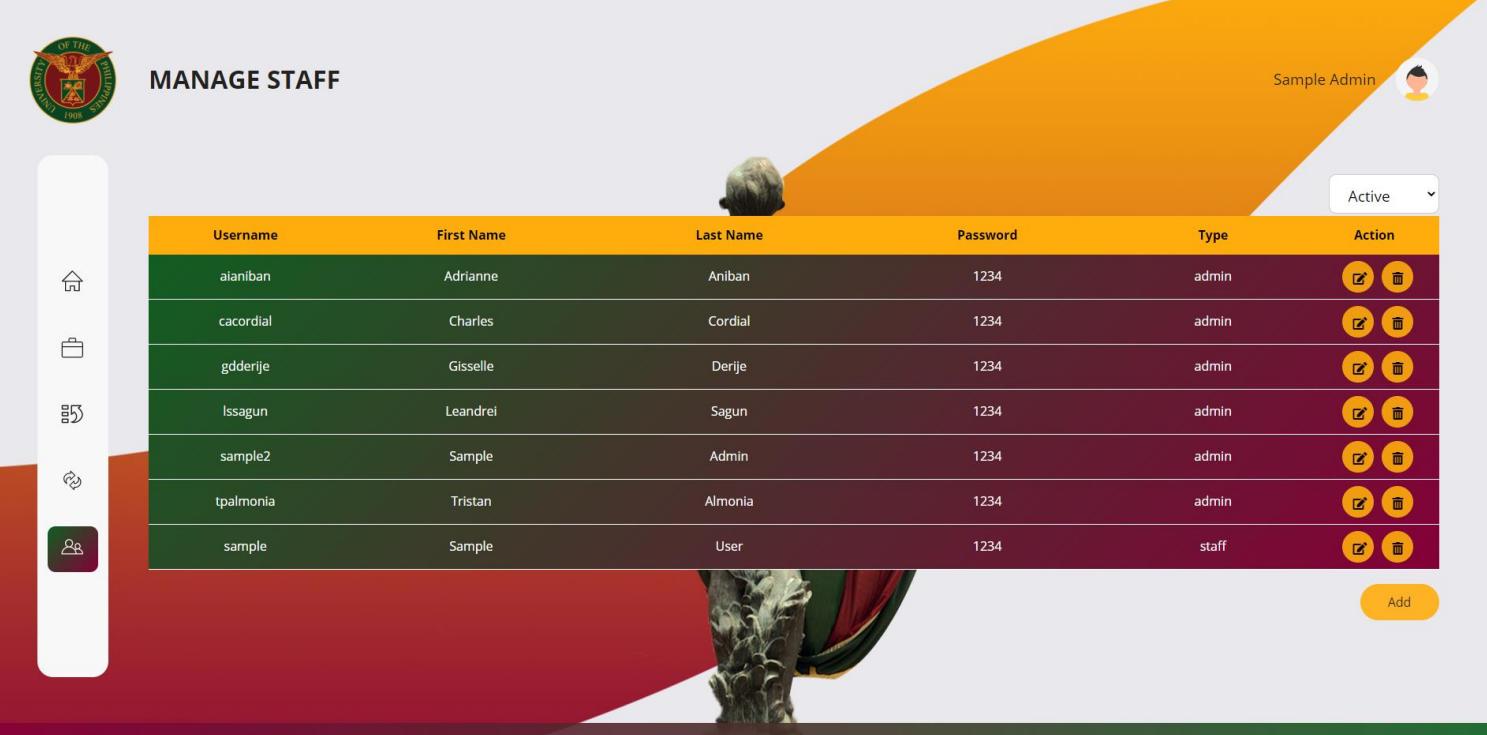

NOTE: Only admin users can access this page.

02

EDIT EXISTING USER INFORMATION

On the Manage Staff page, a table containing the users of the database is shown. To edit a user's existing information, click on the Edit button  on the far-right side of the selected user. A modal pop up will show upon clicking the button.

The screenshot shows the 'MANAGE STAFF' page of a library inventory system. The page features a header with the university logo and a 'Sample Admin' profile. On the left, there's a vertical sidebar with icons for home, staff management, reports, and users. The main area displays a table of users:

Username	First Name	Last Name	Password	Type	Action
aianiban	Adrienne	Aniban	1234	admin	 
cacordial	Charles	Cordial	1234	admin	 
gdderije	Gisselle	Derije	1234	admin	 
lssagun	Leandrei	Sagun	1234	admin	 
sample2	Sample	Admin	1234	admin	 
tpalmonia	Tristan	Almonia	1234	admin	 
sample	Sample	User	1234	staff	 

At the bottom, there are links for the University of the Philippines - Baguio Library Inventory System, copyright information, and social media links.

03

EDIT EXISTING USER INFORMATION

The modal pop up will look like something similar to the reference photo below. Replace all necessary information that admin user wishes to edit. Once finished editing, click the Save Changes button to finish all the updates in the user's information. The changes on the user's information should reflect on the table.

DELETE AN EXISTING USER

How to delete an existing user in the database?

01

Locate the Manage Staff button  located at the navigation bar on the left part of the user's screen.

NOTE: Only admin users can access this page.

DELETE AN EXISTING USER

02

On the Manage Staff page, a table containing the users of the database is shown. To delete a user, click on the Delete button. A modal pop up will show upon clicking the button.

The screenshot shows the 'Manage Staff' page of a library inventory system. The page features a header with the University of the Philippines Baguio logo, the title 'MANAGE STAFF', and a user profile for 'Sample Admin'. On the left, there's a vertical sidebar with icons for Home, Staff, Reports, and a magnifying glass over a person icon. The main content area displays a table of users:

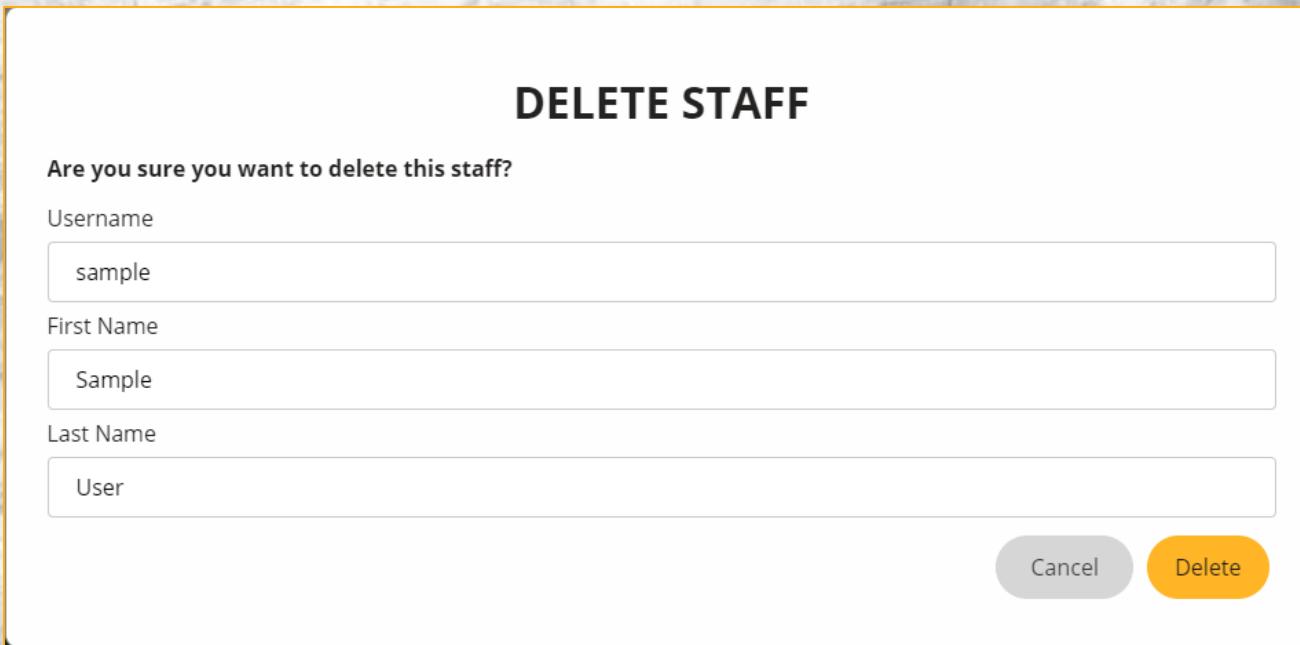

Username	First Name	Last Name	Password	Type	Action
aianiban	Adrienne	Aniban	1234	admin	
cacordial	Charles	Cordial	1234	admin	
gdderije	Gisselle	Derije	1234	admin	
lssagun	Leandrei	Sagun	1234	admin	
sample2	Sample	Admin	1234	admin	
tpalmonia	Tristan	Almonia	1234	admin	
sample	Sample	User	1234	staff	

At the bottom right of the table is a yellow 'Add' button. The footer contains the text 'University of the Philippines - Baguio Library Inventory System', a copyright notice for 2018, and links for news and events.

DELETE AN EXISTING USER

03

The modal pop up will look like something similar to the reference photo below. This pop up contains the information of the user to be deleted. This also serves a confirmation to avoid accidental deletion of users. Once deletion is final, click on the Delete button  and the user should be removed from the list immediately.

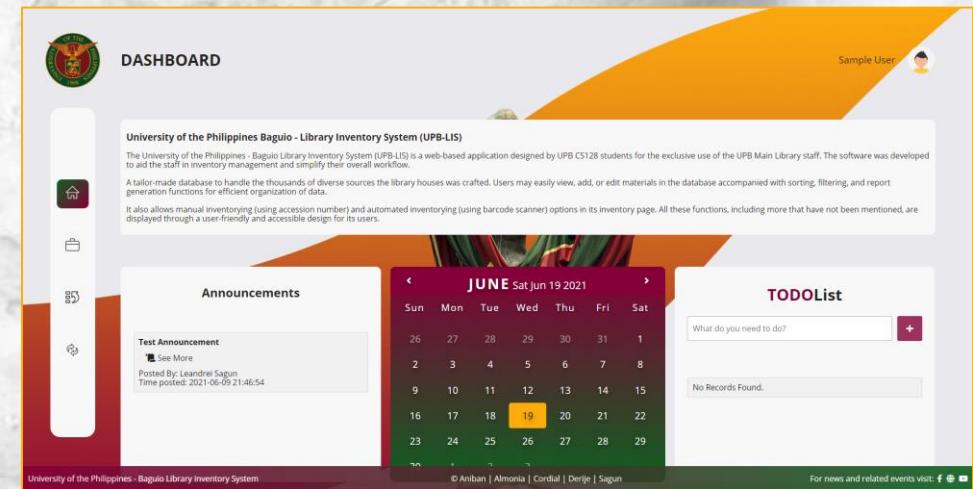

EDIT PERSONAL INFORMATION

How to edit personal credentials like username, password, or name?

01

Locate the user icon  located at the upper right corner of the user's screen beside the user's name.

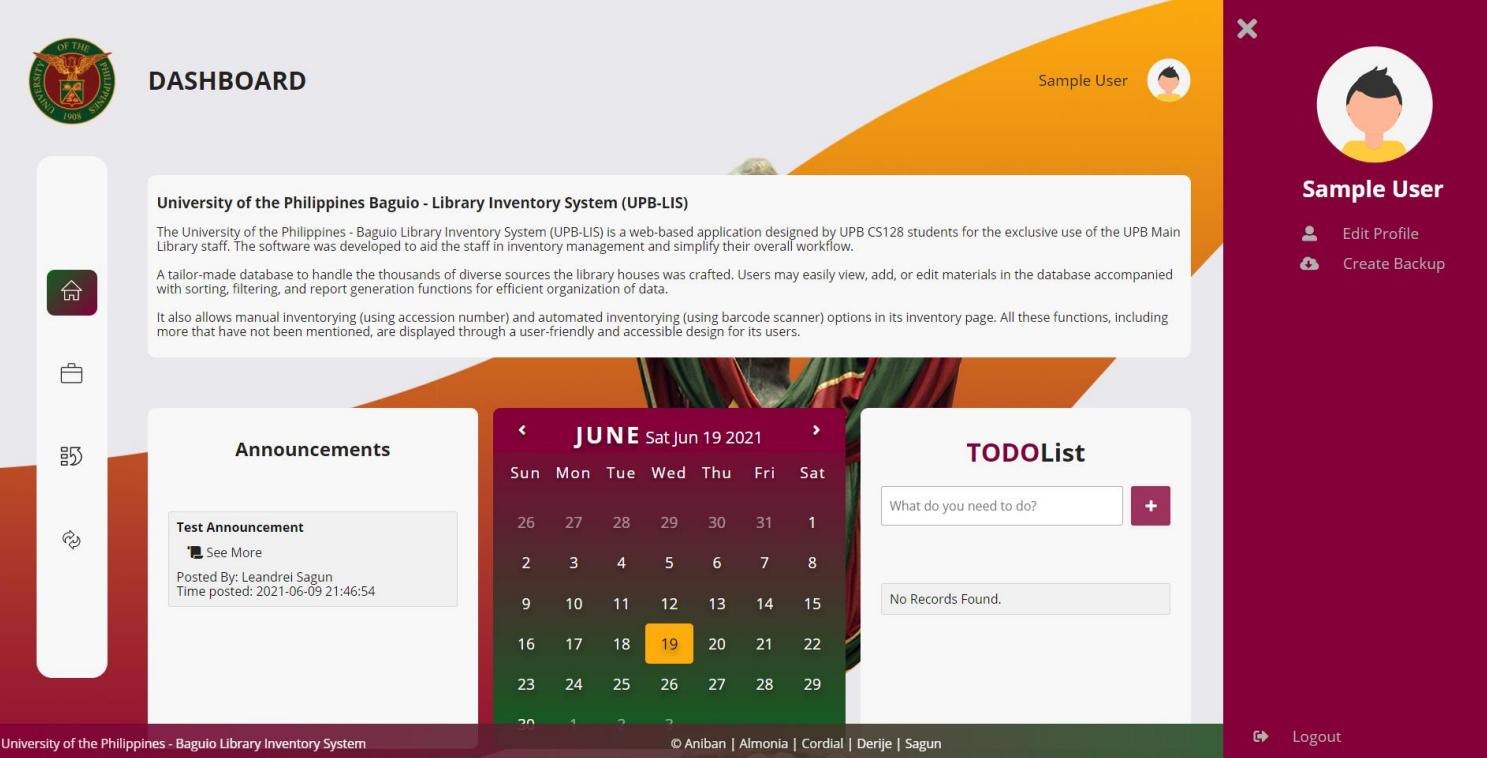

EDIT PERSONAL INFORMATION

02

A sidebar will slide from the right and will display the user's full name with the options to edit profile, create backup, and logout. For editing personal information, click on the edit profile button.

 Edit Profile

The screenshot shows the University of the Philippines Baguio Library Inventory System (UPB-LIS) dashboard. On the left, there is a vertical sidebar with icons for home, announcements, calendar, and todo list. The main content area includes a banner for the UPB-LIS system, an announcements section with a test announcement, a calendar for June 2021, and a todo list section. A sidebar on the right displays the user profile of "Sample User" with options to edit profile, create backup, and logout. The overall design is modern and user-friendly.

DASHBOARD

University of the Philippines Baguio - Library Inventory System (UPB-LIS)

The University of the Philippines - Baguio Library Inventory System (UPB-LIS) is a web-based application designed by UPB CS128 students for the exclusive use of the UPB Main Library staff. The software was developed to aid the staff in inventory management and simplify their overall workflow.

A tailor-made database to handle the thousands of diverse sources the library houses was crafted. Users may easily view, add, or edit materials in the database accompanied with sorting, filtering, and report generation functions for efficient organization of data.

It also allows manual inventorying (using accession number) and automated inventorying (using barcode scanner) options in its inventory page. All these functions, including more that have not been mentioned, are displayed through a user-friendly and accessible design for its users.

LOG OUT

How to log out?

01

Locate the user icon  located at the upper right corner of the user's screen beside the user's name.

LOG OUT

02

A sidebar will slide from the right and will display the user's full name with the options to edit profile, create backup, and logout. For editing personal information, click on the logout button.

Logout

The screenshot shows the UPB-LIS dashboard. On the left is a vertical sidebar with icons for Home, Inventory, Announcements, and Settings. The main content area includes a banner for the UPB-LIS system, an 'Announcements' section with a test announcement, a calendar for June 2021 with the 19th highlighted, and a 'TODOList' section showing no records found. A dark red sidebar on the right displays a user profile for 'Sample User' with options to 'Edit Profile' and 'Create Backup'. At the bottom, there is a footer with links for Aniban, Almonia, Cordial, Derije, and Sagun, along with a 'Logout' button.

DASHBOARD

University of the Philippines Baguio - Library Inventory System (UPB-LIS)

The University of the Philippines - Baguio Library Inventory System (UPB-LIS) is a web-based application designed by UPB CS128 students for the exclusive use of the UPB Main Library staff. The software was developed to aid the staff in inventory management and simplify their overall workflow.

A tailor-made database to handle the thousands of diverse sources the library houses was crafted. Users may easily view, add, or edit materials in the database accompanied with sorting, filtering, and report generation functions for efficient organization of data.

It also allows manual inventorying (using accession number) and automated inventorying (using barcode scanner) options in its inventory page. All these functions, including more that have not been mentioned, are displayed through a user-friendly and accessible design for its users.
